## Fusionnements

**Définition de *fusionnement***

**91** Pour l'application des articles 92 à 100, ***fusionnement*** désigne l'acquisition ou l'établissement, par une ou plusieurs personnes, directement ou indirectement, soit par achat ou location d'actions ou d'éléments d'actif, soit par fusion, association d'intérêts ou autrement, du contrôle sur la totalité ou quelque partie d'une entreprise d'un concurrent, d'un fournisseur, d'un client, ou d'une autre personne, ou encore d'un intérêt relativement important dans la totalité ou quelque partie d'une telle entreprise.

L.R. (1985), ch. 19 (2e suppl.), art. 45.

**Ordonnance en cas de diminution de la concurrence**

**92 (1)** Dans les cas où, à la suite d'une demande du commissaire, le Tribunal conclut qu'un fusionnement réalisé ou proposé empêche ou diminue sensiblement la concurrence, ou aura vraisemblablement cet effet :

**a)** dans un commerce, une industrie ou une profession;

**b)** entre les sources d'approvisionnement auprès desquelles un commerce, une industrie ou une profession se procure un produit;

**c)** entre les débouchés par l'intermédiaire desquels un commerce, une industrie ou une profession écoule un produit;

**(e)** in the case of a completed merger, order any party to the merger or any other person

**(i)** to dissolve the merger in such manner as the Tribunal directs,

**(ii)** to dispose of assets or shares designated by the Tribunal in such manner as the Tribunal directs, or

**(iii)** in addition to or in lieu of the action referred to in subparagraph (i) or (ii), with the consent of the person against whom the order is directed and the Commissioner, to take any other action, or

**(f)** in the case of a proposed merger, make an order directed against any party to the proposed merger or any other person

**(i)** ordering the person against whom the order is directed not to proceed with the merger,

**(ii)** ordering the person against whom the order is directed not to proceed with a part of the merger, or

**(iii)** in addition to or in lieu of the order referred to in subparagraph (ii), either or both

**(A)** prohibiting the person against whom the order is directed, should the merger or part thereof be completed, from doing any act or thing the prohibition of which the Tribunal determines to be necessary to ensure that the merger or part thereof does not prevent or lessen competition substantially, or

**(B)** with the consent of the person against whom the order is directed and the Commissioner, ordering the person to take any other action.

**d)** autrement que selon ce qui est prévu aux alinéas a) à c),

le Tribunal peut, sous réserve des articles 94 et 95 :

**e)** dans le cas d'un fusionnement réalisé, rendre une ordonnance enjoignant à toute personne, que celle-ci soit partie au fusionnement ou non :

**(i)** de le dissoudre, conformément à ses directives,

**(ii)** de se départir, selon les modalités qu'il indique, des éléments d'actif et des actions qu'il indique,

**(iii)** en sus ou au lieu des mesures prévues au sous-alinéa (i) ou (ii), de prendre toute autre mesure, à condition que la personne contre qui l'ordonnance est rendue et le commissaire souscrivent à cette mesure;

**f)** dans le cas d'un fusionnement proposé, rendre, contre toute personne, que celle-ci soit partie au fusionnement proposé ou non, une ordonnance enjoignant :

**(i)** à la personne contre laquelle l'ordonnance est rendue de ne pas procéder au fusionnement,

**(ii)** à la personne contre laquelle l'ordonnance est rendue de ne pas procéder à une partie du fusionnement,

**(iii)** en sus ou au lieu de l'ordonnance prévue au sous-alinéa (ii), cumulativement ou non :

**(A)** à la personne qui fait l'objet de l'ordonnance, de s'abstenir, si le fusionnement était éventuellement complété en tout ou en partie, de faire quoi que ce soit dont l'interdiction est, selon ce que conclut le Tribunal, nécessaire pour que le fusionnement, même partiel, n'empêche ni ne diminue sensiblement la concurrence,

**(B)** à la personne qui fait l'objet de l'ordonnance de prendre toute autre mesure à condition que le commissaire et cette personne y souscrivent.

**Evidence**

**(2)** For the purpose of this section, the Tribunal shall not find that a merger or proposed merger prevents or lessens, or is likely to prevent or lessen, competition substantially solely on the basis of evidence of concentration or market share.

R.S., 1985, c. 19 (2nd Supp.), s. 45; 1999, c. 2, s. 37; 2023, c. 31, s. 9.

**Preuve**

**(2)** Pour l'application du présent article, le Tribunal ne conclut pas qu'un fusionnement, réalisé ou proposé, empêche ou diminue sensiblement la concurrence, ou qu'il aura vraisemblablement cet effet, en raison seulement de la concentration ou de la part du marché.

L.R. (1985), ch. 19 (2e suppl.), art. 45; 1999, ch. 2, art. 37; 2023, ch. 31, art. 9.

**Factors to be considered regarding prevention or lessening of competition**

**93** In determining, for the purpose of section 92, whether or not a merger or proposed merger prevents or lessens, or is likely to prevent or lessen, competition substantially, the Tribunal may have regard to the following factors:

**(a)** the extent to which foreign products or foreign competitors provide or are likely to provide effective competition to the businesses of the parties to the merger or proposed merger;

**(b)** whether the business, or a part of the business, of a party to the merger or proposed merger has failed or is likely to fail;

**(c)** the extent to which acceptable substitutes for products supplied by the parties to the merger or proposed merger are or are likely to be available;

**(d)** any barriers to entry into a market, including

**(i)** tariff and non-tariff barriers to international trade,

**(ii)** interprovincial barriers to trade, and

**(iii)** regulatory control over entry,

and any effect of the merger or proposed merger on such barriers;

**(e)** the extent to which effective competition remains or would remain in a market that is or would be affected by the merger or proposed merger;

**(f)** any likelihood that the merger or proposed merger will or would result in the removal of a vigorous and effective competitor;

**(g)** the nature and extent of change and innovation in a relevant market;

**(g.1)** network effects within the market;

**(g.2)** whether the merger or proposed merger would contribute to the entrenchment of the market position of leading incumbents;

**(g.3)** any effect of the merger or proposed merger on price or non-price competition, including quality, choice or consumer privacy; and

**Éléments à considérer**

**93** Lorsqu'il détermine, pour l'application de l'article 92, si un fusionnement, réalisé ou proposé, empêche ou diminue sensiblement la concurrence, ou s'il aura vraisemblablement cet effet, le Tribunal peut tenir compte des facteurs suivants :

**a)** la mesure dans laquelle des produits ou des concurrents étrangers assurent ou assureront vraisemblablement une concurrence réelle aux entreprises des parties au fusionnement réalisé ou proposé;

**b)** la déconfiture, ou la déconfiture vraisemblable de l'entreprise ou d'une partie de l'entreprise d'une partie au fusionnement réalisé ou proposé;

**c)** la mesure dans laquelle sont ou seront vraisemblablement disponibles des produits pouvant servir de substituts acceptables à ceux fournis par les parties au fusionnement réalisé ou proposé;

**d)** les entraves à l'accès à un marché, notamment :

**(i)** les barrières tarifaires et non tarifaires au commerce international,

**(ii)** les barrières interprovinciales au commerce,

**(iii)** la réglementation de cet accès,

et tous les effets du fusionnement, réalisé ou proposé, sur ces entraves;

**e)** la mesure dans laquelle il y a ou il y aurait encore de la concurrence réelle dans un marché qui est ou serait touché par le fusionnement réalisé ou proposé;

**f)** la possibilité que le fusionnement réalisé ou proposé entraîne ou puisse entraîner la disparition d'un concurrent dynamique et efficace;

**g)** la nature et la portée des changements et des innovations sur un marché pertinent;

**g.1)** les effets de réseau dans le marché;

**g.2)** le fait que le fusionnement réalisé ou proposé contribuerait au renforcement de la position sur le marché des principales entreprises en place;

**g.3)** tout effet du fusionnement réalisé ou proposé sur la concurrence hors prix ou par les prix, notamment la qualité, le choix ou la vie privée des consommateurs;

**(h)** any other factor that is relevant to competition in a market that is or would be affected by the merger or proposed merger.

R.S., 1985, c. 19 (2nd Supp.), s. 45; 2022, c. 10, s. 264.

**h)** tout autre facteur pertinent à la concurrence dans un marché qui est ou serait touché par le fusionnement réalisé ou proposé.

L.R. (1985), ch. 19 (2e suppl.), art. 45; 2022, ch. 10, art. 264.

**(b)** that person or any other person has taken any action specified in the order

that will, in the opinion of the Tribunal, prevent the merger from preventing or lessening competition substantially.

### When conditional order may be rescinded or varied

**(2)** Where, on application by any person against whom an order under section 92 is directed, the Tribunal is satisfied that

**(a)** a reduction, removal or remission specified in the order pursuant to paragraph (1)(a) has occurred, or

**(b)** the action specified in the order pursuant to paragraph (1)(b) has been taken,

the Tribunal may rescind or vary the order accordingly.

### Ordonnances conditionnelles de dissolution de fusionnements

**99 (1)** Le Tribunal peut déclarer, dans une ordonnance rendue en vertu de l'article 92 et enjoignant à une personne de dissoudre un fusionnement ou de se départir d'éléments d'actif ou d'actions, que l'ordonnance peut être annulée ou modifiée si, dans le délai raisonnable qui y est fixé :

**a)** soit il y a eu :

**(i)** ou bien réduction, suppression ou remise, indiquée dans l'ordonnance, de droits de douane pertinents,

**(ii)** ou bien réduction ou suppression, indiquée dans l'ordonnance, d'interdictions, de contrôles ou de réglementations imposés aux termes ou en vertu d'une loi fédérale et visant l'importation au Canada d'un article mentionné dans l'ordonnance;

**b)** soit la personne en question ou une autre personne a pris toute mesure indiquée à l'ordonnance,

et, qu'en conséquence, selon le Tribunal, le fusionnement n'aura pas pour effet d'empêcher ou de diminuer sensiblement la concurrence.

### Annulation ou modification de l'ordonnance

**(2)** À la demande d'une personne contre qui une ordonnance a été rendue aux termes de l'article 92, le Tribunal peut annuler ou modifier l'ordonnance en question s'il est convaincu que :

**100 (1)** Le Tribunal peut rendre une ordonnance provisoire interdisant à toute personne nommée dans la demande de poser tout geste qui, de l'avis du Tribunal, pourrait constituer la réalisation ou la mise en œuvre du fusionnement proposé, ou y tendre, relativement auquel il n'y a pas eu de demande aux termes de l'article 92 ou antérieurement aux termes du présent article, si :

**a)** à la demande du commissaire comportant une attestation de la tenue de l'enquête prévue à l'alinéa 10(1)b) et de la nécessité, selon celui-ci, d'un délai supplémentaire pour l'achever, il conclut qu'une personne, partie ou non au fusionnement proposé, posera

party to the proposed merger or any other person is likely to take an action that would substantially impair the ability of the Tribunal to remedy the effect of the proposed merger on competition under that section because that action would be difficult to reverse; or

**(b)** the Tribunal finds, on application by the Commissioner, that the completion of the proposed merger would result in a contravention of section 114.

vraisemblablement, en l'absence d'une ordonnance provisoire, des gestes qui, parce qu'ils seraient alors difficiles à contrer, auraient pour effet de réduire sensiblement l'aptitude du Tribunal à remédier à l'influence du fusionnement proposé sur la concurrence, si celui-ci devait éventuellement appliquer cet article à l'égard de ce fusionnement;

**b)** à la demande du commissaire, il conclut que la réalisation du fusionnement proposé serait une contravention de l'article 114.

**Notice of application**

**(2)** Subject to subsection (3), at least forty-eight hours notice of an application for an interim order under subsection (1) shall be given by or on behalf of the Commissioner to each person against whom the order is sought.

**(3)** Where the Tribunal is satisfied, in respect of an application for an interim order under paragraph (1)(b), that

**(a)** subsection (2) cannot reasonably be complied with, or

**(b)** the urgency of the situation is such that service of notice in accordance with subsection (2) would not be in the public interest,

it may proceed with the application *ex parte*.

**Audition *ex parte***

**(3)** Si, lors d'une demande d'ordonnance provisoire présentée en vertu de l'alinéa (1)b), le Tribunal est convaincu :

**a)** qu'en toute raison, le paragraphe (2) ne peut pas être observé;

**b)** que la situation est à ce point urgente que la signification de l'avis aux termes du paragraphe (2) ne servirait pas l'intérêt public,

il peut entendre la demande *ex parte*.

**Terms of interim order**

**(4)** An interim order issued under subsection (1)

**(a)** shall be on such terms as the Tribunal considers necessary and sufficient to meet the circumstances of the case; and

**(b)** subject to subsections (5) and (6), shall have effect for such period of time as is specified in it.

**Conditions d'une ordonnance provisoire**

**(4)** Une ordonnance provisoire rendue aux termes du paragraphe (1) :

**Duration of order: inquiry**

**(5)** The duration of an interim order issued under paragraph (1)(a) shall not exceed thirty days.

**b)** dans les autres cas, trente jours à compter du moment où les exigences de l'article 114 ont été respectées.

compter du moment où les exigences de l'article 114 ont été respectées;

### Extension of time

**(7)** Where the Tribunal finds, on application made by the Commissioner on forty-eight hours notice to each person to whom an interim order is directed, that the Commissioner is unable to complete an inquiry within the period specified in the order because of circumstances beyond the control of the Commissioner, the Tribunal may extend the duration of the order to a day not more than sixty days after the order takes effect.

### Prorogation du délai

**(7)** Lorsque le Tribunal conclut, sur demande présentée par le commissaire après avoir donné un avis de quarante-huit heures à chaque personne visée par l'ordonnance provisoire, que celui-ci est incapable, à cause de circonstances indépendantes de sa volonté, d'achever une enquête dans le délai prévu par l'ordonnance, il peut la proroger; la durée d'application maximale de l'ordonnance ainsi prorogée est de soixante jours à compter de sa prise d'effet.

**56 to 59** [Repealed, 1999, c. 2, s. 17]

**Defence**

**60** Section 54 does not apply to a person who prints or publishes or otherwise distributes a representation or an advertisement on behalf of another person in Canada if he or she establishes that he or she obtained and recorded the name and address of that other person and accepted the representation or advertisement in good faith for printing, publishing or other distribution in the ordinary course of his or her business.

**(a)** the same corporation, partnership or sole proprietorship, or

**Suggested retail price**

**(3)** For the purposes of this section, a suggestion by a producer or supplier of a product of a resale price or minimum resale price in respect thereof, however arrived at, is, in the absence of proof that the person making the suggestion, in so doing, also made it clear to the person to whom the suggestion was made that he was under no obligation to accept the suggestion and would in no way suffer in his business relations with the person making the suggestion or with any other person if he failed to accept the suggestion, proof of an attempt to influence the person to whom the suggestion is made in accordance with the suggestion.

**Idem**

**(4)** For the purposes of this section, the publication by a supplier of a product, other than a retailer, of an advertisement that mentions a resale price for the product is an attempt to influence upward the selling price of any person into whose hands the product comes for resale unless the price is so expressed as to make it clear to any person to whose attention the advertisement comes that the product may be sold at a lower price.

**Refusal to supply**

**(6)** No person shall, by threat, promise or any like means, attempt to induce a supplier, whether within or outside Canada, as a condition of his doing business with the supplier, to refuse to supply a product to a particular person or class of persons because of the low pricing policy of that person or class of persons.

**(10)** Where, in a prosecution under paragraph (1)(b), it is proved that the person charged refused or counselled the refusal to supply a product to any other person, no inference unfavourable to the person charged shall be drawn from that evidence if he satisfies the court that he and any one on whose report he depended believed on reasonable grounds

**(a)** that the other person was making a practice of using products supplied by the person charged as loss-leaders, that is to say, not for the purpose of making a profit thereon but for purposes of advertising;

**(b)** that the other person was making a practice of using products supplied by the person charged not for the purpose of selling the products at a profit but for the purpose of attracting customers to his store in the hope of selling them other products;

**(c)** that the other person was making a practice of engaging in misleading advertising in respect of products supplied by the person charged; or

**(d)** that the other person made a practice of not providing the level of servicing that purchasers of the products might reasonably expect from the other person.

**(a)** makes a representation to the public that is false or misleading in a material respect;

**(i)** a warranty or guarantee of a product, or

**(ii)** a promise to replace, maintain or repair an article or any part thereof or to repeat or continue a service until it has achieved a specified result,

if the form of purported warranty or guarantee or promise is materially misleading or if there is no reasonable prospect that it will be carried out.

**(b)** such a representation or testimonial was, before being made or published, approved and permission to make or publish it was given in writing by the person by whom the test was made or the testimonial was given,

**(2)** A person engages in reviewable conduct who advertises at a bargain price a product that the person does not supply in reasonable quantities having regard to the nature of the market in which the person carries on business, the nature and size of the person's business and the nature of the advertisement.

**Saving**

**(3)** Subsection (2) does not apply to a person who establishes that

**(a)** the person took reasonable steps to obtain in adequate time a quantity of the product that would have been reasonable having regard to the nature of the advertisement, but was unable to obtain such a quantity by reason of events beyond the person's control that could not reasonably have been anticipated;

**(a)** in respect of an advertisement that appears in a catalogue in which it is prominently stated that the prices contained in it are subject to error if the person establishes that the price advertised is in error;

**(b)** in respect of an advertisement that is immediately followed by another advertisement correcting the price mentioned in the first advertisement;

**(c)** in respect of the supply of a security obtained on the open market during a period when the prospectus relating to that security is still current; or

**(a)** adequate and fair disclosure is not made of the number and approximate value of the prizes, of the area or areas to which they relate and of any fact within the knowledge of the person that affects materially the chances of winning;

**(b)** distribution of the prizes is unduly delayed; or

**(c)** selection of participants or distribution of prizes is not made on the basis of skill or on a random basis in any area to which prizes have been allocated.

**Non-application**

**(2)** Sections 74.01 to 74.06 do not apply in respect of conduct prohibited by sections 52.1, 53, 55 and 55.1.

**(b)** to publish or otherwise disseminate a notice, in such manner and at such times as the court may specify, to bring to the attention of the class of persons likely to have been reached or affected by the conduct, the name under which the person carries on business and the determination made under this section, including

**(i)** a description of the reviewable conduct,

**(iii)** a description of the manner in which any representation or advertisement was disseminated, including, where applicable, the name of the publication or other medium employed; and

**(c)** to pay an administrative monetary penalty, in such manner as the court may specify, in an amount not exceeding

**(i)** in the case of an individual, $50,000 and, for each subsequent order, $100,000, or

**(2)** An order made under paragraph (1)(a) applies for a period of ten years unless the court specifies a shorter period.

**Saving**

**(3)** No order may be made against a person under paragraph (1)(b) or (c) where the person establishes that the person exercised due diligence to prevent the reviewable conduct from occurring.

**Purpose of order**

**(4)** The terms of an order made against a person under paragraph (1)(b) or (c) shall be determined with a view to promoting conduct by that person that is in conformity with the purposes of this Part and not with a view to punishment.

**Aggravating or mitigating factors**

**(5)** Any evidence of the following shall be taken into account in determining the amount of an administrative monetary penalty under paragraph (1)(c):

**(a)** the reach of the conduct within the relevant geographic market;

**(b)** the frequency and duration of the conduct;

**(c)** the vulnerability of the class of persons likely to be adversely affected by the conduct;

**(d)** the materiality of any representation;

**(e)** the likelihood of self-correction in the relevant geographic market;

**(f)** injury to competition in the relevant geographic market;

**Temporary order**

**74.11 (1)** Where, on application by the Commissioner, a court finds a strong *prima facie* case that a person is engaging in reviewable conduct under this Part, the court may order the person not to engage in that conduct or substantially similar reviewable conduct if the court is satisfied that

**(a)** serious harm is likely to ensue unless the order is issued; and

**(b)** the balance of convenience favours issuing the order.

**Duration**

**(2)** Subject to subsection (5), the order has effect, or may be extended on application by the Commissioner, for such period as the court considers necessary and sufficient to meet the circumstances of the case.

**Notice of application by Commissioner**

**(3)** Subject to subsection (4), at least forty-eight hours notice of an application referred to in subsection (1) or (2) shall be given by or on behalf of the Commissioner to the person in respect of whom the order or extension is sought.

***Ex parte* application**

**(4)** The court may proceed *ex parte* with an application made under subsection (1) where it is satisfied that subsection (3) cannot reasonably be complied with or that the urgency of the situation is such that service of notice in accordance with subsection (3) would not be in the public interest.

**Duration of *ex parte* order**

**(5)** An order issued *ex parte* shall have effect for such period as is specified in it, not exceeding seven days unless, on further application made on notice as provided in subsection (3), the court extends the order for such additional period as it considers necessary and sufficient.

**Registration**

**(3)** The consent agreement may be filed with the court for immediate registration.

**Effect of registration**

**(4)** Upon registration of the consent agreement, the proceedings, if any, are terminated and the consent agreement has the same force and effect, and proceedings may be taken, as if it were an order of the court.

1999, c. 2, s. 22; 2002, c. 16, s. 11.

**Rescission or variation of consent agreement or order**

**74.13** The court may rescind or vary a consent agreement that it has registered or an order that it has made under this Part, on application by the Commissioner or the person who consented to the agreement, or the person against whom the order was made, if the court finds that

**(a)** the circumstances that led to the making of the agreement or order have changed and, in the circumstances that exist at the time the application is made, the agreement or order would not have been made or would have been ineffective in achieving its intended purpose; or

**(b)** the Commissioner and the person who consented to the agreement have consented to an alternative agreement or the Commissioner and the person against whom the order was made have consented to an alternative order.

1999, c. 2, s. 22; 2002, c. 16, s. 11.

**Evidence**

**74.14** In determining whether or not to make an order under this Part, the court shall not exclude from consideration any evidence by reason only that it might be evidence in respect of an offence under this Act or in respect of which another order could be made by the court under this Act.

1999, c. 2, s. 22.

**Unpaid monetary penalty**

**74.15** The amount of an administrative monetary penalty imposed on a person under paragraph 74.1(1)(c) is a debt due to Her Majesty in right of Canada and may be recovered as such from that person in a court of competent jurisdiction.

1999, c. 2, s. 22.

**Proceedings commenced under Part VI**

**74.16** No application may be made by the Commissioner for an order under this Part against a person where proceedings have been commenced under section 52 against that person on the basis of the same or substantially the same facts as would be alleged in proceedings under this Part.

**PART VIII**

# Matters Reviewable by Tribunal

## Restrictive Trade Practices

### Refusal to Deal

**Jurisdiction of Tribunal where refusal to deal**

**75 (1)** Where, on application by the Commissioner or a person granted leave under section 103.1, the Tribunal finds that

**(a)** a person is substantially affected in his business or is precluded from carrying on business due to his inability to obtain adequate supplies of a product anywhere in a market on usual trade terms,

**(b)** the person referred to in paragraph (a) is unable to obtain adequate supplies of the product because of insufficient competition among suppliers of the product in the market,

**(c)** the person referred to in paragraph (a) is willing and able to meet the usual trade terms of the supplier or suppliers of the product,

**(d)** the product is in ample supply, and

**(e)** the refusal to deal is having or is likely to have an adverse effect on competition in a market,

the Tribunal may order that one or more suppliers of the product in the market accept the person as a customer within a specified time on usual trade terms unless, within the specified time, in the case of an article, any customs duties on the article are removed, reduced or remitted and the effect of the removal, reduction or remission is to place the person on an equal footing with other persons who are able to obtain adequate supplies of the article in Canada.

**When article is a separate product**

**(2)** For the purposes of this section, an article is not a separate product in a market only because it is differentiated from other articles in its class by a trade-mark, proprietary name or the like, unless the article so differentiated occupies such a dominant position in that market as to substantially affect the ability of a person to carry on business in that class of articles unless that person has access to the article so differentiated.

**Definition of *trade terms***

**(3)** For the purposes of this section, the expression ***trade terms*** means terms in respect of payment, units of purchase and reasonable technical and servicing requirements.

**Inferences**

**(4)** In considering an application by a person granted leave under section 103.1, the Tribunal may not draw any inference from the fact that the Commissioner has or has not taken any action in respect of the matter raised by the application.

R.S., 1985, c. C-34, s. 75; R.S., 1985, c. 19 (2nd Supp.), s. 45; 1999, c. 2, s. 37; 2002, c. 16, s. 11.1.

## Consignment Selling

**Consignment selling**

**76** Where, on application by the Commissioner, the Tribunal finds that the practice of consignment selling has been introduced by a supplier of a product who ordinarily sells the product for resale, for the purpose of

**(a)** controlling the price at which a dealer in the product supplies the product, or

**(b)** discriminating between consignees or between dealers to whom he sells the product for resale and consignees,

the Tribunal may order the supplier to cease to carry on the practice of consignment selling of the product.

R.S., 1985, c. C-34, s. 76; R.S., 1985, c. 19 (2nd Supp.), s. 45; 1999, c. 2, s. 37.

## Exclusive Dealing, Tied Selling and Market Restriction

**Definitions**

**77 (1)** For the purposes of this section,

***exclusive dealing*** means

**(a)** any practice whereby a supplier of a product, as a condition of supplying the product to a customer, requires that customer to

**(i)** deal only or primarily in products supplied by or designated by the supplier or the supplier's nominee, or

**(ii)** refrain from dealing in a specified class or kind of product except as supplied by the supplier or the nominee, and

**(b)** any practice whereby a supplier of a product induces a customer to meet a condition set out in subparagraph (a)(i) or (ii) by offering to supply the product to the customer on more favourable terms or conditions if the customer agrees to meet the condition set out in either of those subparagraphs; (*exclusivité*)

***market restriction*** means any practice whereby a supplier of a product, as a condition of supplying the product to a customer, requires that customer to supply any product only in a defined market, or exacts a penalty of any kind from the customer if he supplies any product outside a defined market; (*limitation du marché*)

***tied selling*** means

**(a)** any practice whereby a supplier of a product, as a condition of supplying the product (the "tying" product) to a customer, requires that customer to

**(i)** acquire any other product from the supplier or the supplier's nominee, or

**(ii)** refrain from using or distributing, in conjunction with the tying product, another product that is not of a brand or manufacture designated by the supplier or the nominee, and

**(b)** any practice whereby a supplier of a product induces a customer to meet a condition set out in subparagraph (a)(i) or (ii) by offering to supply the tying product to the customer on more favourable terms or conditions if the customer agrees to meet the condition set out in either of those subparagraphs. (*ventes liées*)

**Exclusive dealing and tied selling**

**(2)** Where, on application by the Commissioner or a person granted leave under section 103.1, the Tribunal finds that exclusive dealing or tied selling, because it is engaged in by a major supplier of a product in a market or because it is widespread in a market, is likely to

**(a)** impede entry into or expansion of a firm in a market,

**(b)** impede introduction of a product into or expansion of sales of a product in a market, or

**(c)** have any other exclusionary effect in a market,

with the result that competition is or is likely to be lessened substantially, the Tribunal may make an order directed to all or any of the suppliers against whom an order is sought prohibiting them from continuing to engage in that exclusive dealing or tied selling and containing any other requirement that, in its opinion, is necessary to overcome the effects thereof in the market or to restore or stimulate competition in the market.

**Market restriction**

**(3)** Where, on application by the Commissioner or a person granted leave under section 103.1, the Tribunal finds that market restriction, because it is engaged in by a major supplier of a product or because it is widespread in relation to a product, is likely to substantially lessen competition in relation to the product, the Tribunal may make an order directed to all or any of the suppliers against whom an order is sought prohibiting them from continuing to engage in market restriction and containing any other requirement that, in its opinion, is necessary to restore or stimulate competition in relation to the product.

**Damage awards**

**(3.1)** For greater certainty, the Tribunal may not make an award of damages under this section to a person granted leave under subsection 103.1(7).

**Where no order to be made and limitation on application of order**

**(4)** The Tribunal shall not make an order under this section where, in its opinion,

**(a)** exclusive dealing or market restriction is or will be engaged in only for a reasonable period of time to facilitate entry of a new supplier of a product into a market or of a new product into a market,

**(b)** tied selling that is engaged in is reasonable having regard to the technological relationship between or among the products to which it applies, or

**(c)** tied selling that is engaged in by a person in the business of lending money is for the purpose of better securing loans made by that person and is reasonably necessary for that purpose,

and no order made under this section applies in respect of exclusive dealing, market restriction or tied selling between or among companies, partnerships and sole proprietorships that are affiliated.

**Where company, partnership or sole proprietorship affiliated**

**(5)** For the purposes of subsection (4),

**(a)** one company is affiliated with another company if one of them is the subsidiary of the other or both are the subsidiaries of the same company or each of them is controlled by the same person;

**(b)** if two companies are affiliated with the same company at the same time, they are deemed to be affiliated with each other;

**(c)** a partnership or sole proprietorship is affiliated with another partnership, sole proprietorship or a company if both are controlled by the same person; and

**(d)** a company, partnership or sole proprietorship is affiliated with another company, partnership or sole proprietorship in respect of any agreement between them whereby one party grants to the other party the right to use a trade-mark or trade-name to identify the business of the grantee, if

**(i)** the business is related to the sale or distribution, pursuant to a marketing plan or system prescribed substantially by the grantor, of a multiplicity of products obtained from competing sources of supply and a multiplicity of suppliers, and

**(ii)** no one product dominates the business.

**When persons deemed to be affiliated**

**(6)** For the purposes of subsection (4) in its application to market restriction, where there is an agreement whereby one person (the “first” person) supplies or causes to be supplied to another person (the “second” person) an ingredient or ingredients that the second person processes by the addition of labour and material into an article of food or drink that he then

sells in association with a trade-mark that the first person owns or in respect of which the first person is a registered user, the first person and the second person are deemed, in respect of the agreement, to be affiliated.

**Inferences**

**(7)** In considering an application by a person granted leave under section 103.1, the Tribunal may not draw any inference from the fact that the Commissioner has or has not taken any action in respect of the matter raised by the application.

R.S., 1985, c. C-34, s. 77; R.S., 1985, c. 19 (2nd Supp.), s. 45; 1999, c. 2, ss. 23, 37, c. 31, s. 52(F); 2002, c. 16, ss. 11.2, 11.3.

## Abuse of Dominant Position

**Definition of "anti-competitive act"**

**78 (1)** For the purposes of section 79, “anti-competitive act”, without restricting the generality of the term, includes any of the following acts:

**(a)** squeezing, by a vertically integrated supplier, of the margin available to an unintegrated customer who competes with the supplier, for the purpose of impeding or preventing the customer’s entry into, or expansion in, a market;

**(b)** acquisition by a supplier of a customer who would otherwise be available to a competitor of the supplier, or acquisition by a customer of a supplier who would otherwise be available to a competitor of the customer, for the purpose of impeding or preventing the competitor’s entry into, or eliminating the competitor from, a market;

**(c)** freight equalization on the plant of a competitor for the purpose of impeding or preventing the competitor’s entry into, or eliminating the competitor from, a market;

**(d)** use of fighting brands introduced selectively on a temporary basis to discipline or eliminate a competitor;

**(e)** pre-emption of scarce facilities or resources required by a competitor for the operation of a business, with the object of withholding the facilities or resources from a market;

**(f)** buying up of products to prevent the erosion of existing price levels;

**(g)** adoption of product specifications that are incompatible with products produced by any other person and are designed to prevent his entry into, or to eliminate him from, a market;

**(h)** requiring or inducing a supplier to sell only or primarily to certain customers, or to refrain from selling to a competitor, with the object of preventing a competitor’s entry into, or expansion in, a market;

**(i)** selling articles at a price lower than the acquisition cost for the purpose of disciplining or eliminating a competitor;

**(j)** acts or conduct of a person operating a domestic service, as defined in subsection 55(1) of the *Canada Transportation Act*, that are specified under paragraph (2)(a); and

**(k)** the denial by a person operating a domestic service, as defined in subsection 55(1) of the *Canada Transportation Act*, of access on reasonable commercial terms to facilities or services that are essential to the operation in a market of an air service, as defined in that subsection, or refusal by such a person to supply such facilities or services on such terms.

**Regulations**

**(2)** The Governor in Council may, on the recommendation of the Minister and the Minister of Transport, make regulations

**(a)** specifying acts or conduct for the purpose of paragraph (1)(j); and

**(b)** specifying facilities or services that are essential to the operation of an air service for the purpose of paragraph (1)(k).

R.S., 1985, c. 19 (2nd Supp.), s. 45; 2000, c. 15, s. 13.

**Prohibition where abuse of dominant position**

**79 (1)** Where, on application by the Commissioner, the Tribunal finds that

**(a)** one or more persons substantially or completely control, throughout Canada or any area thereof, a class or species of business,

**(b)** that person or those persons have engaged in or are engaging in a practice of anti-competitive acts, and

**(c)** the practice has had, is having or is likely to have the effect of preventing or lessening competition substantially in a market,

the Tribunal may make an order prohibiting all or any of those persons from engaging in that practice.

**Additional or alternative order**

**(2)** Where, on an application under subsection (1), the Tribunal finds that a practice of anti-competitive acts has had or is having the effect of preventing or lessening competition substantially in a market and that an order under subsection (1) is not likely to restore competition in that market, the Tribunal may, in addition to or in lieu of making an order under subsection (1), make an order directing any or all the persons against whom an order is sought to take such actions, including the divestiture of assets or shares, as are reasonable and as are necessary to overcome the effects of the practice in that market.

**Limitation**

**(3)** In making an order under subsection (2), the Tribunal shall make the order in such terms as will in its opinion interfere with the rights of any person to whom the order is directed or any other person affected by it only to the extent necessary to achieve the purpose of the order.

**Administrative monetary penalty**

**(3.1)** Where the Tribunal makes an order under subsection (1) or (2) against an entity who operates a domestic service, as defined in subsection 55(1) of the *Canada Transportation Act*, it may also order the entity to pay, in such manner as the Tribunal may specify, an administrative monetary penalty in an amount not greater than $15 million.

**Aggravating or mitigating factors**

**(3.2)** In determining the amount of an administrative monetary penalty, the Tribunal shall take into account the following:

**(a)** the frequency and duration of the practice;

**(b)** the vulnerability of the class of persons adversely affected by the practice;

**(c)** injury to competition in the relevant market;

**(d)** the history of compliance with this Act by the entity; and

**(e)** any other relevant factor.

**Purpose of order**

**(3.3)** The purpose of an order under subsection (3.1) is to promote practices that are in conformity with this section, not to punish.

**Superior competitive performance**

**(4)** In determining, for the purposes of subsection (1), whether a practice has had, is having or is likely to have the effect of preventing or lessening competition substantially in a market, the Tribunal shall consider whether the practice is a result of superior competitive performance.

**Exception**

**(5)** For the purpose of this section, an act engaged in pursuant only to the exercise of any right or enjoyment of any interest derived under the *Copyright Act*, *Industrial Design Act*, *Integrated Circuit Topography Act*, *Patent Act*, *Trade-marks Act* or any other Act of Parliament pertaining to intellectual or industrial property is not an anti-competitive act.

**Limitation period**

**(6)** No application may be made under this section in respect of a practice of anti-competitive acts more than three years after the practice has ceased.

**Where proceedings commenced under section 45 or 92**

**(7)** No application may be made under this section against a person

**(a)** against whom proceedings have been commenced under section 45, or

**(b)** against whom an order is sought under section 92

on the basis of the same or substantially the same facts as would be alleged in the proceedings under section 45 or 92, as the case may be.

2002, c. 16, s. 11.5.

## Delivered Pricing

**Definition of *delivered pricing***

**80 (1)** For the purposes of section 81, ***delivered pricing*** means the practice of refusing a customer, or a person seeking to become a customer, delivery of an article at any place in which the supplier engages in a practice of making delivery of the article to any other of the supplier's customers on the same trade terms that would be available to the first-mentioned customer if his place of business were located in that place.

**Definition of *trade terms***

**(2)** For the purposes of subsection (1), the expression ***trade terms*** means terms in respect of payment, units of purchase and reasonable technical and servicing requirements.

R.S., 1985, c. 19 (2nd Supp.), s. 45.

**Delivered pricing**

**81 (1)** Where, on application by the Commissioner, the Tribunal finds that delivered pricing is engaged in by a major supplier of an article in a market or is widespread in a market with the result that a customer, or a person seeking to become a customer, is denied an advantage that would otherwise be available to him in the market, the Tribunal may make an order prohibiting all or any of such suppliers from engaging in delivered pricing.

**Exception where significant capital investment needed**

**(2)** No order shall be made against a supplier under this section where the Tribunal finds that the supplier could not accommodate any additional customers at a locality without making significant capital investment at that locality.

**Exception where trade-mark used**

**(3)** No order shall be made against a supplier under this section in respect of a practice of refusing a customer delivery of an article that the customer sells in association with a trade-mark that the supplier owns or in respect of which the supplier is a registered user where the Tribunal finds that the practice is necessary to maintain a standard of quality in respect of the article.

R.S., 1985, c. 19 (2nd Supp.), s. 45; 1999, c. 2, s. 37.

## Foreign Judgments and Laws

**Foreign judgments, etc.**

**82** Where, on application by the Commissioner, the Tribunal finds that

**(a)** a judgment, decree, order or other process given, made or issued by or out of a court or other body in a country other than Canada can be implemented in whole or in part by persons in Canada, by companies incorporated by or pursuant to an Act of Parliament or of the legislature of a province, or by measures taken in Canada, and

**(b)** the implementation in whole or in part of the judgment, decree, order or other process in Canada, would

**(i)** adversely affect competition in Canada,

**(ii)** adversely affect the efficiency of trade or industry in Canada without bringing about or increasing in Canada competition that would restore or improve that efficiency,

**(iii)** adversely affect the foreign trade of Canada without compensating advantages, or

**(iv)** otherwise restrain or injure trade or commerce in Canada without compensating advantages,

the Tribunal may, by order, direct that

**(c)** no measures be taken in Canada to implement the judgment, decree, order or process, or

**(d)** no measures be taken in Canada to implement the judgment, decree, order or process except in such manner as the Tribunal prescribes for the purpose of avoiding an effect referred to in subparagraphs (b)(i) to (iv).

**(i)** a law in force in a country other than Canada, or

**(ii)** a directive, instruction, intimation of policy or other communication to that person or company or to any other person from

**(A)** the government of a country other than Canada or of any political subdivision thereof that is in a position to direct or influence the policies of that person or company, or

**(B)** a person in a country other than Canada who is in a position to direct or influence the policies of that person or company,

where the communication is for the purpose of giving effect to a law in force in a country other than Canada,

and that the decision, if implemented, would have or would be likely to have any of the effects mentioned in subparagraphs 82(b)(i) to (iv), or

**(b)** as a result of a directive, instruction, intimation of policy or other communication to that person or company or to any other person, from a person in a country other than Canada who is in a position to direct or influence the policies of that person or company, where the communication is for the purpose of giving effect to a conspiracy, combination, agreement or arrangement entered into outside Canada that, if entered into in Canada, would have been in contravention of section 45,

the Tribunal may, by order, direct that

**(c)** in a case described in paragraph (a) or (b), no measures be taken by the person or company in Canada to implement the law, directive, instruction, intimation of policy or other communication, or

**(d)** in a case described in paragraph (a), no measures be taken by the person or company in Canada to implement the law, directive, instruction, intimation of policy or other communication except in such manner as the Tribunal prescribes for the purpose of avoiding an effect referred to in subparagraphs 82(b)(i) to (iv).

**Limitation**

**(2)** No application may be made by the Commissioner for an order under this section against a particular company where proceedings have been commenced under section 46 against that company based on the same or substantially the same facts as would be alleged in the application.

R.S., 1985, c. 19 (2nd Supp.), s. 45; 1999, c. 2, s. 37.

## Foreign Suppliers

**Refusal to supply by foreign supplier**

**84** Where, on application by the Commissioner, the Tribunal finds that a supplier outside Canada has refused to supply a product or otherwise discriminated in the supply of a product to a person in Canada (the “first” person) at the instance of and by reason of the exertion of

buying power outside Canada by another person, the Tribunal may order any person in Canada (the “second” person) by whom or on whose behalf or for whose benefit the buying power was exerted

**(a)** to sell any such product of the supplier that the second person has obtained or obtains to the first person at the laid-down cost in Canada to the second person of the product and on the same terms and conditions as the second person obtained or obtains from the supplier; or

**(b)** not to deal or to cease to deal, in Canada, in that product of the supplier.

R.S., 1985, c. 19 (2nd Supp.), s. 45;  1999, c. 2, s. 37.

# Specialization Agreements

**Definitions**

**85** For the purposes of this section and sections 86 to 90,

***article*** includes each separate type, size, weight and quality in which an article, within the meaning assigned by section 2, is produced; (*article*)

***registered*** means registered in the register maintained pursuant to section 89; (*inscrit*)

***specialization agreement*** means an agreement under which each party thereto agrees to discontinue producing an article or service that he is engaged in producing at the time the agreement is entered into on the condition that each other party to the agreement agrees to discontinue producing an article or service that he is engaged in producing at the time the agreement is entered into, and includes any such agreement under which the parties also agree to buy exclusively from each other the articles or services that are the subject of the agreement. (*accord de spécialisation*)

R.S., 1985, c. 19 (2nd Supp.), s. 45.

**Order directing registration**

**86 (1)** Where, on application by any person, and after affording the Commissioner a reasonable opportunity to be heard, the Tribunal finds that an agreement that the person who has made the application has entered into or is about to enter into is a specialization agreement and that

**(a)** the implementation of the agreement is likely to bring about gains in efficiency that will be greater than, and will offset, the effects of any prevention or lessening of competition that will result or is likely to result from the agreement and the gains in efficiency would not likely be attained if the agreement were not implemented, and

**(b)** no attempt has been made by the persons who have entered or are about to enter into the agreement to coerce any person to become a party to the agreement,

the Tribunal may, subject to subsection (4), make an order directing that the agreement be registered for a period specified in the order.

**Factors to be considered**

**(2)** In considering whether an agreement is likely to bring about gains in efficiency described in paragraph (1)(a), the Tribunal shall consider whether those gains will result in

**(a)** a significant increase in the real value of exports; or

**(b)** a significant substitution of domestic articles or services for imported articles or services.

**Redistribution of income does not result in gains in efficiency**

**(3)** For the purposes of paragraph (1)(a), the Tribunal shall not find that an agreement is likely to bring about gains in efficiency by reason only of a redistribution of income between two or more persons.

**Conditional orders**

**(4)** Where, on an application under subsection (1), the Tribunal finds that an agreement meets the conditions prescribed by paragraphs (a) and (b) of that subsection but also finds that, as a result of the implementation of the agreement, there is not likely to be substantial competition remaining in the market or markets to which the agreement relates, the Tribunal may provide, in an order made under subsection (1), that the order shall take effect only if, within a reasonable period of time specified in the order, there has occurred any of the following events, specified in the order:

**(a)** the divestiture of particular assets, specified in the order;

**(b)** a wider licensing of patents or registered integrated circuit topographies;

**(c)** a reduction in tariffs;

**(d)** the making of an order in council under section 23 of the *Financial Administration Act* effecting a remission or remissions specified in the order of the Tribunal of any customs duties on an article that is a subject of the agreement; or

**(e)** the removal of import quotas or import licensing requirements.

R.S., 1985, c. 19 (2nd Supp.), s. 45; 1990, c. 37, s. 32; 1999, c. 2, s. 37.

**Registration of modifications**

**87 (1)** On application by the parties to a specialization agreement that has been registered, and after affording the Commissioner a reasonable opportunity to be heard, the Tribunal may make an order directing that a modification of the agreement be registered.

**Order to remove from register**

**(2)** Where, on application by the Commissioner, the Tribunal finds that the agreement or a modification thereof that has been registered

**(a)** has ceased to meet the conditions prescribed by paragraph 86(1)(a) or (b), or

**(b)** is not being implemented,

the Tribunal may make an order directing that the agreement or modification thereof, and any order relating thereto, be removed from the register.

R.S., 1985, c. 19 (2nd Supp.), s. 45; 1999, c. 2, s. 37.

**Right of intervention**

**88** The attorney general of a province may intervene in any proceedings before the Tribunal under section 86 or 87 for the purpose of making representations on behalf of the province.

R.S., 1985, c. 19 (2nd Supp.), s. 45.

**Register of specialization agreements**

**89 (1)** The Tribunal shall cause to be maintained at its Registry established pursuant to subsection 14(1) of the *Competition Tribunal Act* a register of specialization agreements, and modifications thereof, that the Tribunal has directed be registered, and any such agreements and modifications thereof shall be included in the register for the periods specified in the orders.

**Public access to register**

**(2)** The register shall be kept open to inspection by any person during normal business hours of the Tribunal.

R.S., 1985, c. 19 (2nd Supp.), s. 45.

**Non-application of sections 45 and 77**

**90** Section 45, and section 77 as it applies to exclusive dealing, do not apply in respect of a specialization agreement, or any modification thereof, that is registered.

R.S., 1985, c. 19 (2nd Supp.), s. 45.

# Mergers

**Definition of *merger***

**91** In sections 92 to 100, ***merger*** means the acquisition or establishment, direct or indirect, by one or more persons, whether by purchase or lease of shares or assets, by amalgamation or by combination or otherwise, of control over or significant interest in the whole or a part of a business of a competitor, supplier, customer or other person.

R.S., 1985, c. 19 (2nd Supp.), s. 45.

**Order**

**92 (1)** Where, on application by the Commissioner, the Tribunal finds that a merger or proposed merger prevents or lessens, or is likely to prevent or lessen, competition substantially

**(a)** in a trade, industry or profession,

**(b)** among the sources from which a trade, industry or profession obtains a product,

**(c)** among the outlets through which a trade, industry or profession disposes of a product, or

**(d)** otherwise than as described in paragraphs (a) to (c),

the Tribunal may, subject to sections 94 to 96,

**(e)** in the case of a completed merger, order any party to the merger or any other person

**(i)** to dissolve the merger in such manner as the Tribunal directs,

**(ii)** to dispose of assets or shares designated by the Tribunal in such manner as the Tribunal directs, or

**(iii)** in addition to or in lieu of the action referred to in subparagraph (i) or (ii), with the consent of the person against whom the order is directed and the Commissioner, to take any other action, or

**(f)** in the case of a proposed merger, make an order directed against any party to the proposed merger or any other person

**(i)** ordering the person against whom the order is directed not to proceed with the merger,

**(ii)** ordering the person against whom the order is directed not to proceed with a part of the merger, or

**(iii)** in addition to or in lieu of the order referred to in subparagraph (ii), either or both

**(A)** prohibiting the person against whom the order is directed, should the merger or part thereof be completed, from doing any act or thing the prohibition of which the Tribunal determines to be necessary to ensure that the merger or part thereof does not prevent or lessen competition substantially, or

**(B)** with the consent of the person against whom the order is directed and the Commissioner, ordering the person to take any other action.

**Evidence**

**(2)** For the purpose of this section, the Tribunal shall not find that a merger or proposed merger prevents or lessens, or is likely to prevent or lessen, competition substantially solely on the basis of evidence of concentration or market share.

R.S., 1985, c. 19 (2nd Supp.), s. 45; 1999, c. 2, s. 37.

**Factors to be considered regarding prevention or lessening of competition**

**93** In determining, for the purpose of section 92, whether or not a merger or proposed merger prevents or lessens, or is likely to prevent or lessen, competition substantially, the Tribunal may have regard to the following factors:

**(a)** the extent to which foreign products or foreign competitors provide or are likely to provide effective competition to the businesses of the parties to the merger or proposed merger;

**(b)** whether the business, or a part of the business, of a party to the merger or proposed merger has failed or is likely to fail;

**(c)** the extent to which acceptable substitutes for products supplied by the parties to the merger or proposed merger are or are likely to be available;

**(d)** any barriers to entry into a market, including

**(i)** tariff and non-tariff barriers to international trade,

**(ii)** interprovincial barriers to trade, and

**(iii)** regulatory control over entry,

and any effect of the merger or proposed merger on such barriers;

**(e)** the extent to which effective competition remains or would remain in a market that is or would be affected by the merger or proposed merger;

**(f)** any likelihood that the merger or proposed merger will or would result in the removal of a vigorous and effective competitor;

**(g)** the nature and extent of change and innovation in a relevant market; and

**(h)** any other factor that is relevant to competition in a market that is or would be affected by the merger or proposed merger.

R.S., 1985, c. 19 (2nd Supp.), s. 45.

**Exception**

**94** The Tribunal shall not make an order under section 92 in respect of

**(a)** a merger substantially completed before the coming into force of this section;

**(b)** a merger or proposed merger under the *Bank Act*, the *Cooperative Credit Associations Act*, the *Insurance Companies Act* or the *Trust and Loan Companies Act* in respect of which the Minister of Finance has certified to the Commissioner the names of the parties and that the merger is in the public interest — or that it would be in the public interest, taking into account any terms and conditions that may be imposed under those Acts; or

**(c)** a merger or proposed merger approved under subsection 56.2(6) of the *Canada Transportation Act* and in respect of which the Minister of Transport has certified to the Commissioner the names of the parties.

R.S., 1985, c. 19 (2nd Supp.), s. 45; 1991, c. 45, s. 549, c. 46, ss. 592, 593, c. 47, s. 716; 1999, c. 2, s. 37; 2000, c. 15, s. 14; 2001, c. 9, s. 579.

**Exception for joint ventures**

**95 (1)** The Tribunal shall not make an order under section 92 in respect of a combination formed or proposed to be formed, otherwise than through a corporation, to undertake a specific project or a program of research and development if

**(a)** a project or program of that nature

**(i)** would not have taken place or be likely to take place in the absence of the combination, or

**(ii)** would not reasonably have taken place or reasonably be likely to take place in the absence of the combination because of the risks involved in relation to the project or program and the business to which it relates;

**(b)** no change in control over any party to the combination resulted or would result from the combination;

**(c)** all the persons who formed the combination are parties to an agreement in writing that imposes on one or more of them an obligation to contribute assets and governs a continuing relationship between those parties;

**(d)** the agreement referred to in paragraph (c) restricts the range of activities that may be carried on pursuant to the combination, and provides that the agreement terminates on the completion of the project or program; and

**(e)** the combination does not prevent or lessen or is not likely to prevent or lessen competition except to the extent reasonably required to undertake and complete the project or program.

**Limitation**

**(2)** For greater certainty, this section does not apply in respect of the acquisition of assets of a combination.

R.S., 1985, c. 19 (2nd Supp.), s. 45.

**Exception where gains in efficiency**

**96 (1)** The Tribunal shall not make an order under section 92 if it finds that the merger or proposed merger in respect of which the application is made has brought about or is likely to bring about gains in efficiency that will be greater than, and will offset, the effects of any

prevention or lessening of competition that will result or is likely to result from the merger or proposed merger and that the gains in efficiency would not likely be attained if the order were made.

**Factors to be considered**

**(2)** In considering whether a merger or proposed merger is likely to bring about gains in efficiency described in subsection (1), the Tribunal shall consider whether such gains will result in

**(a)** a significant increase in the real value of exports; or

**(b)** a significant substitution of domestic products for imported products.

**Restriction**

**(3)** For the purposes of this section, the Tribunal shall not find that a merger or proposed merger has brought about or is likely to bring about gains in efficiency by reason only of a redistribution of income between two or more persons.

R.S., 1985, c. 19 (2nd Supp.), s. 45.

**Limitation period**

**97** No application may be made under section 92 in respect of a merger more than three years after the merger has been substantially completed.

R.S., 1985, c. 19 (2nd Supp.), s. 45.

**Where proceedings commenced under section 45 or 79**

**98** No application may be made under section 92 against a person

**(a)** against whom proceedings have been commenced under section 45, or

**(b)** against whom an order is sought under section 79

on the basis of the same or substantially the same facts as would be alleged in the proceedings under section 45 or 79, as the case may be.

R.S., 1985, c. 19 (2nd Supp.), s. 45.

**Conditional orders directing dissolution of a merger**

**99 (1)** The Tribunal may provide, in an order made under section 92 directing a person to dissolve a merger or to dispose of assets or shares, that the order may be rescinded or varied if, within a reasonable period of time specified in the order,

**(a)** there has occurred

**(i)** a reduction, removal or remission, specified in the order, of any relevant customs duties, or

**(ii)** a reduction or removal, specified in the order, of prohibitions, controls or regulations imposed by or pursuant to any Act of Parliament on the importation into Canada of an article specified in the order, or

**(b)** that person or any other person has taken any action specified in the order

that will, in the opinion of the Tribunal, prevent the merger from preventing or lessening competition substantially.

**When conditional order may be rescinded or varied**

**(2)** Where, on application by any person against whom an order under section 92 is directed, the Tribunal is satisfied that

**(a)** a reduction, removal or remission specified in the order pursuant to paragraph (1)(a) has occurred, or

**(b)** the action specified in the order pursuant to paragraph (1)(b) has been taken,

the Tribunal may rescind or vary the order accordingly.
R.S., 1985, c. 19 (2nd Supp.), s. 45.

**Interim order where no application under section 92**

**100 (1)** The Tribunal may issue an interim order forbidding any person named in the application from doing any act or thing that it appears to the Tribunal may constitute or be directed toward the completion or implementation of a proposed merger in respect of which an application has not been made under section 92 or previously under this section, where

**(a)** on application by the Commissioner, certifying that an inquiry is being made under paragraph 10(1)(b) and that, in the Commissioner's opinion, more time is required to complete the inquiry, the Tribunal finds that in the absence of an interim order a party to the proposed merger or any other person is likely to take an action that would substantially impair the ability of the Tribunal to remedy the effect of the proposed merger on competition under that section because that action would be difficult to reverse; or

**(b)** the Tribunal finds, on application by the Commissioner, that there has been a contravention of section 114 in respect of the proposed merger.

**Notice of application**

**(2)** Subject to subsection (3), at least forty-eight hours notice of an application for an interim order under subsection (1) shall be given by or on behalf of the Commissioner to each person against whom the order is sought.

***Ex parte* application**

**(3)** Where the Tribunal is satisfied, in respect of an application for an interim order under paragraph (1)(b), that

**(a)** subsection (2) cannot reasonably be complied with, or

**(b)** the urgency of the situation is such that service of notice in accordance with subsection (2) would not be in the public interest,

it may proceed with the application *ex parte*.

**Terms of interim order**

**(4)** An interim order issued under subsection (1)

**(a)** shall be on such terms as the Tribunal considers necessary and sufficient to meet the circumstances of the case; and

**(b)** subject to subsections (5) and (6), shall have effect for such period of time as is specified in it.

**Duration of order: inquiry**

**(5)** The duration of an interim order issued under paragraph (1)(a) shall not exceed thirty days.

**Duration of order: failure to comply**

**(6)** The duration of an interim order issued under paragraph (1)(b) shall not exceed

**(a)** ten days after section 114 is complied with, in the case of an interim order issued on *ex parte* application; or

**(b)** thirty days after section 114 is complied with, in any other case.

**Extension of time**

**(7)** Where the Tribunal finds, on application made by the Commissioner on forty-eight hours notice to each person to whom an interim order is directed, that the Commissioner is unable to complete an inquiry within the period specified in the order because of circumstances beyond the control of the Commissioner, the Tribunal may extend the duration of the order to a day not more than sixty days after the order takes effect.

**Completion of inquiry**

**(8)** Where an interim order is issued under paragraph (1)(a), the Commissioner shall proceed as expeditiously as possible to complete the inquiry under section 10 in respect of the proposed merger.

R.S., 1985, c. 19 (2nd Supp.), s. 45; 1999, c. 2, ss. 24, 37.

**Right of intervention**

**101** The attorney general of a province may intervene in any proceedings before the Tribunal under section 92 for the purpose of making representations on behalf of the province.

R.S., 1985, c. 19 (2nd Supp.), s. 45.

**Advance ruling certificates**

**102 (1)** Where the Commissioner is satisfied by a party or parties to a proposed transaction that he would not have sufficient grounds on which to apply to the Tribunal under section 92, the Commissioner may issue a certificate to the effect that he is so satisfied.

**Duty of Commissioner**

**(2)** The Commissioner shall consider any request for a certificate under this section as expeditiously as possible.

R.S., 1985, c. 19 (2nd Supp.), s. 45; 1999, c. 2, s. 37.

**No application under section 92**

**103** Where the Commissioner issues a certificate under section 102, the Commissioner shall not, if the transaction to which the certificate relates is substantially completed within one year after the certificate is issued, apply to the Tribunal under section 92 in respect of the transaction solely on the basis of information that is the same or substantially the same as the information on the basis of which the certificate was issued.

R.S., 1985, c. 19 (2nd Supp.), s. 45; 1999, c. 2, s. 37.

# General

**Leave to make application under section 75 or 77**

**103.1 (1)** Any person may apply to the Tribunal for leave to make an application under section 75 or 77. The application for leave must be accompanied by an affidavit setting out the facts in support of the person's application under section 75 or 77.

**(b)** was the subject of an inquiry that has been discontinued because of a settlement between the Commissioner and the person against whom the order under section 75 or 77 is sought.

**Application discontinued**

**(4)** The Tribunal shall not consider an application for leave respecting a matter described in paragraph (3)(a) or (b) or a matter that is the subject of an application already submitted to the Tribunal by the Commissioner under section 75 or 77.

**Notice by Tribunal**

**(5)** The Tribunal shall as soon as practicable after receiving the Commissioner's certification under subsection (3) notify the applicant and any person against whom the order is sought as to whether it can hear the application for leave.

**Representations**

**(6)** A person served with an application for leave may, within 15 days after receiving notice under subsection (5), make representations in writing to the Tribunal and shall serve a copy of the representations on any other person referred to in subsection (2).

**Granting leave to make application under section 75 or 77**

**(7)** The Tribunal may grant leave to make an application under section 75 or 77 if it has reason to believe that the applicant is directly and substantially affected in the applicants' business by any practice referred to in one of those sections that could be subject to an order under that section.

**Time and conditions for making application**

**(8)** The Tribunal may set the time within which and the conditions subject to which an application under section 75 or 77 must be made. The application must be made no more than one year after the practice that is the subject of the application has ceased.

**Decision**

**(9)** The Tribunal must give written reasons for its decision to grant or refuse leave and send copies to the applicant, the Commissioner and any other person referred to in subsection (2).

**Limitation**

**(10)** The Commissioner may not make an application for an order under section 75, 77 or 79 on the basis of the same or substantially the same facts as are alleged in a matter for which the Tribunal has granted leave under subsection (7), if the person granted leave has already applied to the Tribunal under section 75 or 77.

**Inferences**

**(11)** In considering an application for leave, the Tribunal may not draw any inference from the fact that the Commissioner has or has not taken any action in respect of the matter raised by it.

**Inquiry by Commissioner**

**(12)** If the Commissioner has certified under subsection (3) that a matter in respect of which leave was sought by a person is under inquiry and the Commissioner subsequently discontinues the inquiry other than by way of settlement, the Commissioner shall, as soon as practicable, notify that person that the inquiry is discontinued.
2002, c. 16, s. 12.

**Intervention by Commissioner**

**103.2** If a person granted leave under subsection 103.1(7) makes an application under section 75 or 77, the Commissioner may intervene in the proceedings.

2002, c. 16, s. 12.

**Interim order**

**103.3 (1)** Subject to subsection (2), the Tribunal may, on *ex parte* application by the Commissioner in which the Commissioner certifies that an inquiry is being made under paragraph 10(1)(b), issue an interim order

**(a)** to prevent the continuation of conduct that could be the subject of an order under any of sections 75 to 77, 79, 81 or 84; or

**(b)** to prevent the taking of measures under section 82 or 83.

**Limitation**

**(2)** The Tribunal may make the interim order if it finds that the conduct or measures could be of the type described in paragraph (1)(a) or (b) and that, in the absence of an interim order,

**(a)** injury to competition that cannot adequately be remedied by the Tribunal is likely to occur;

**(b)** a person is likely to be eliminated as a competitor; or

**(c)** a person is likely to suffer a significant loss of market share, a significant loss of revenue or other harm that cannot be adequately remedied by the Tribunal.

**Consultation**

**(3)** Before making an application for an order to prevent the continuation of conduct that could be the subject of an order under any of sections 75 to 77, 79, 81 or 84 by an entity incorporated under the *Bank Act*, the *Insurance Companies Act*, the *Trust and Loan Companies Act* or the *Cooperative Credit Associations Act* or a subsidiary of such an entity, the Commissioner must consult with the Minister of Finance respecting the safety and soundness of the entity.

**Duration**

**(4)** Subject to subsections (5) and (6), an interim order has effect for 10 days, beginning on the day on which it is made.

**Extension or revocation of order**

**(5)** The Tribunal may, on application by the Commissioner on 48 hours notice to each person against whom the interim order is directed,

**(a)** extend the interim order once or twice for additional periods of 35 days each; or

**(b)** rescind the order.

**Application to Tribunal for extension**

**(5.1)** The Commissioner may, before the expiry of the second 35-day period referred to in subsection (5) or of the period fixed by the Tribunal under subsection (7), as the case may be, apply to the Tribunal for a further extension of the interim order.

**Notice of application by Commissioner**

**(5.2)** The Commissioner shall give at least 48 hours notice of an application referred to in subsection (5.1) to the person against whom the interim order is made.

**Extension of interim order**

**(5.3)** The Tribunal may order that the effective period of the interim order be extended if

**(a)** the Commissioner establishes that information requested for the purpose of the inquiry has not yet been provided or that more time is needed in order to review the information;

**(b)** the information was requested during the initial period that the interim order had effect, within the first 35 days after an order extending the interim order under subsection (5) had effect, or within the first 35 days after an order extending the interim order made under subsection (7) had effect, as the case may be, and

**(i)** the provision of such information is the subject of a written undertaking, or

**(ii)** the information was ordered to be provided under section 11; and

**(c)** the information is reasonably required to determine whether grounds exist for the Commissioner to make an application under any section referred to in paragraph (1)(a) or (b).

**Terms**

**(5.4)** An order extending an interim order issued under subsection (5.3) shall have effect for such period as the Tribunal considers necessary to give the Commissioner a reasonable opportunity to receive and review the information referred to in that subsection.

**Effect of application**

**(5.5)** If an application is made under subsection (5.1), the interim order has effect until the Tribunal makes a decision whether to grant an extension under subsection (5.3).

**When application made to Tribunal**

**(6)** If an application is made under subsection (7), an interim order has effect until the Tribunal makes an order under that subsection.

**Confirming or setting aside interim order**

**(7)** A person against whom the Tribunal has made an interim order may apply to the Tribunal in the first 10 days during which the order has effect to have it varied or set aside and the Tribunal shall

**(a)** if it is satisfied that one or more of the situations set out in paragraphs (2)(a) to (c) existed or are likely to exist, make an order confirming the interim order, with or without variation as the Tribunal considers necessary and sufficient to meet the circumstances, and fix the effective period of that order for a maximum of 70 days, beginning on the day on which the order confirming the interim order is made; and

**(b)** if it is not satisfied that any of the situations set out in paragraphs (2)(a) to (c) existed or is likely to exist, make an order setting aside the interim order.

**Notice**

**(8)** A person who makes an application under subsection (7) shall give the Commissioner 48 hours written notice of the application.

**Representations**

**(9)** At the hearing of an application under subsection (7), the Tribunal shall provide the applicant, the Commissioner and any person directly affected by the interim order with a full opportunity to present evidence and make representations before the Tribunal makes an order under that subsection.

**Prohibition of extraordinary relief**

**(10)** Notwithstanding section 13 of the *Competition Tribunal Act*, an interim order shall not be appealed or reviewed in any court except as provided for by subsection (7).

**Duty of Commissioner**

**(11)** When an interim order is in effect, the Commissioner shall proceed as expeditiously as possible to complete the inquiry arising out of the conduct in respect of which the order was made.

2002, c. 16, s. 12.

**Interim order**

**104 (1)** Where an application has been made for an order under this Part, other than an interim order under section 100 or 103.3, the Tribunal, on application by the Commissioner or a person who has made an application under section 75 or 77, may issue such interim order

**(c)** the information is reasonably required to determine whether grounds exist for the Commissioner to make an application under section 79.

**Registration of orders**

**(13)** The Commissioner shall file each temporary order with the Registry of the Tribunal. Once registered, the order is enforceable in the same manner as an order of the Tribunal.

**Registration**

**(3)** The consent agreement may be filed with the Tribunal for immediate registration.

**(b)** the Commissioner and the person who consented to the agreement have consented to an alternative agreement or the Commissioner and the person against whom the order was made have consented to an alternative order.

**Directly affected persons**

**(2)** A person directly affected by a consent agreement, other than a party to that agreement, may apply to the Tribunal within 60 days after the registration of the agreement to have one or more of its terms rescinded or varied. **Notice to Commissioner**

**(2)** On filing the consent agreement with the Tribunal for registration, the parties shall serve a copy of it on the Commissioner without delay.

**Publication**

**Deemed representation to public**

**(3)** Subject to subsection (1), a person who, for the purpose of promoting, directly or indirectly, the supply or use of a product or any business interest, supplies to a wholesaler, retailer or other distributor of a product any material or thing that contains a representation of a nature referred to in section 74.01 is deemed to make that representation to the public.

**Certain matters need not be established**

**(4)** For greater certainty, in proceedings under sections 74.01 and 74.02, it is not necessary to establish that

**(a)** any person was deceived or misled;

**(b)** any member of the public to whom the representation was made was within Canada; or

**(c)** the representation was made in a place to which the public had access.

**General impression to be considered**

**(3)** Subsection (2) does not apply to a person who establishes that

**(a)** the person took reasonable steps to obtain in adequate time a quantity of the product that would have been reasonable having regard to the nature of the advertisement, but was unable to obtain such a quantity by reason of events beyond the person’s control that could not reasonably have been anticipated;

**(b)** the person obtained a quantity of the product that was reasonable having regard to the nature of the advertisement, but was unable to meet the demand therefor because that demand surpassed the person's reasonable expectations; or

**(c)** after becoming unable to supply the product in accordance with the advertisement, the person undertook to supply the same product or an equivalent product of equal or better quality at the bargain price and within a reasonable time to all persons who requested the product and who were not supplied with it during the time when the bargain price applied, and the person fulfilled the undertaking.

1999, c. 2, s. 22.

**Sale above advertised price**

**74.05 (1)** A person engages in reviewable conduct who advertises a product for sale or rent in a market and, during the period and in the market to which the advertisement relates, supplies the product at a price that is higher than the price advertised.

**74.06** A person engages in reviewable conduct who, for the purpose of promoting, directly or indirectly, the supply or use of a product, or for the purpose of promoting, directly or indirectly, any business interest, conducts any contest, lottery, game of chance or skill, or mixed chance

and skill, or otherwise disposes of any product or other benefit by any mode of chance, skill or mixed chance and skill whatever, where

**(a)** adequate and fair disclosure is not made of the number and approximate value of the prizes, of the area or areas to which they relate and of any fact within the knowledge of the person that affects materially the chances of winning;

**(b)** distribution of the prizes is unduly delayed; or

**(c)** selection of participants or distribution of prizes is not made on the basis of skill or on a random basis in any area to which prizes have been allocated.

**Determination of reviewable conduct and judicial order**

**74.1 (1)** Where, on application by the Commissioner, a court determines that a person is engaging in or has engaged in reviewable conduct under this Part, the court may order the person

**(a)** not to engage in the conduct or substantially similar reviewable conduct;

**(b)** to publish or otherwise disseminate a notice, in such manner and at such times as the court may specify, to bring to the attention of the class of persons likely to have been reached or affected by the conduct, the name under which the person carries on business and the determination made under this section, including

**(i)** a description of the reviewable conduct,

**(d)** in the case of conduct that is reviewable under paragraph 74.01(1)(a), to pay an amount, not exceeding the total of the amounts paid to the person for the products in respect of which the conduct was engaged in, to be distributed among the persons to whom the products were sold — except wholesalers, retailers or other distributors, to the extent that they have resold or distributed the products — in any manner that the court considers appropriate.

**Duration of order**

**(2)** An order made under paragraph (1)(a) applies for a period of ten years unless the court specifies a shorter period.

**Saving**

**(3)** No order may be made against a person under paragraph (1)(b), (c) or (d) if the person establishes that the person exercised due diligence to prevent the reviewable conduct from occurring.

**Purpose of order**

**(4)** The terms of an order made against a person under paragraph (1)(b), (c) or (d) shall be determined with a view to promoting conduct by that person that is in conformity with the purposes of this Part and not with a view to punishment.

**Aggravating or mitigating factors**

**(5)** Any evidence of the following shall be taken into account in determining the amount of an administrative monetary penalty under paragraph (1)(c):

**(a)** the reach of the conduct within the relevant geographic market;

**(b)** the frequency and duration of the conduct;

**(c)** the vulnerability of the class of persons likely to be adversely affected by the conduct;

**(d)** the materiality of any representation;

**(e)** the likelihood of self-correction in the relevant geographic market;

**(a)** an order was previously made against the person under this section in respect of conduct reviewable under the same provision;

**(b)** the person was previously convicted of an offence under the provision of Part VI, as that Part read immediately before the coming into force of this Part, that corresponded to the provision of this Part;

**(c)** in the case of an order in respect of conduct reviewable under paragraph 74.01(1)(a), the person was previously convicted of an offence under section 52, or under paragraph 52(1)(a) as it read immediately before the coming into force of this Part; or

**(d)** in the case of an order in respect of conduct reviewable under subsection 74.01(2) or (3), the person was previously convicted of an offence under paragraph 52(1)(d) as it read immediately before the coming into force of this Part.

**Amounts already paid**

**(7)** In determining an amount to be paid under paragraph (1)(d), the court shall take into account any other amounts paid or ordered to be paid by the person against whom the order is made as a refund or as restitution or other compensation in respect of the products.

**Implementation of the order**

**(8)** The court may specify in an order made under paragraph (1)(d) any terms that it considers necessary for the order's implementation, including terms

**(a)** specifying how the payment is to be administered;

**(f)** specifying the conditions for the eligibility of claimants, including conditions relating to the return of the products to the person against whom the order is made; and

**(g)** providing for the manner in which, and the terms on which, any amount of the payment that remains unclaimed or undistributed is to be dealt with.

**Variation of terms**

**(9)** On application by the Commissioner or the person against whom the order is made, the court may vary any term that is specified under subsection (8).
1999, c. 2, s. 22; 2009, c. 2, s. 424.

**Temporary order**

**74.11 (1)** Where, on application by the Commissioner, a court finds a strong *prima facie* case that a person is engaging in reviewable conduct under this Part, the court may order the person not to engage in that conduct or substantially similar reviewable conduct if the court is satisfied that

**(a)** serious harm is likely to ensue unless the order is issued; and

**(b)** the balance of convenience favours issuing the order.

**Duration**

**(2)** Subject to subsection (5), the order has effect, or may be extended on application by the Commissioner, for such period as the court considers necessary and sufficient to meet the circumstances of the case.

**Notice of application by Commissioner**

**(3)** Subject to subsection (4), at least forty-eight hours notice of an application referred to in subsection (1) or (2) shall be given by or on behalf of the Commissioner to the person in respect of whom the order or extension is sought.

***Ex parte* application**

**(4)** The court may proceed *ex parte* with an application made under subsection (1) where it is satisfied that subsection (3) cannot reasonably be complied with or that the urgency of the situation is such that service of notice in accordance with subsection (3) would not be in the public interest.

**Duration of *ex parte* order**

**(5)** An order issued *ex parte* shall have effect for such period as is specified in it, not exceeding seven days unless, on further application made on notice as provided in subsection (3), the court extends the order for such additional period as it considers necessary and sufficient.

**Duty of Commissioner**

**(6)** Where an order issued under this section is in effect, the Commissioner shall proceed as expeditiously as possible to complete the inquiry under section 10 arising out of the conduct in respect of which the order was issued.
1999, c. 2, s. 22; 2002, c. 16, s. 10.

**Interim injunction**

**74.111 (1)** If, on application by the Commissioner, a court finds a strong *prima facie* case that a person is engaging in or has engaged in conduct that is reviewable under paragraph 74.01(1)(a), and the court is satisfied that the person owns or has possession or control of articles within the jurisdiction of the court and is disposing of or is likely to dispose of them by any means, and that the disposal of the articles will substantially impair the enforceability of an order made under paragraph 74.1(1)(d), the court may issue an interim injunction forbidding the person or any other person from disposing of or otherwise dealing with the articles, other than in the manner and on the terms specified in the injunction.

**Statement to be included**

**(2)** Any application for an injunction under subsection (1) shall include a statement that the Commissioner has applied for an order under paragraph 74.1(1)(d), or that the Commissioner intends to apply for an order under that paragraph if the Commissioner applies for an order under paragraph 74.1(1)(a).

**Duration**

**(3)** Subject to subsection (6), the injunction has effect, or may be extended on application by the Commissioner, for any period that the court considers sufficient to meet the circumstances of the case.

**Notice of application by Commissioner**

**(4)** Subject to subsection (5), at least 48 hours' notice of an application referred to in subsection (1) or (3) shall be given by or on behalf of the Commissioner to the person in respect of whom the injunction or extension is sought.

***Ex parte* application**

**(5)** The court may proceed *ex parte* with an application made under subsection (1) if it is satisfied that subsection (4) cannot reasonably be complied with or where the urgency of the situation is such that service of the notice in accordance with subsection (4) might defeat the purpose of the injunction or would otherwise not be in the public interest.

**Duration of *ex parte* injunction**

**(6)** An injunction issued *ex parte* has effect for the period that is specified in it, not exceeding seven days unless, on further application made on notice as provided in subsection (4), the court extends the injunction for any additional period that it considers sufficient.

**Submissions to set aside**

**(7)** On application of the person against whom an *ex parte* injunction is made, the court may make an order setting aside the injunction or varying it subject to any conditions that it considers appropriate.

**Duty of Commissioner**

**(8)** If an injunction issued under this section is in effect, the Commissioner shall proceed as expeditiously as possible to complete any inquiry under section 10 arising out of the conduct in respect of which the injunction was issued.

**Registration**

**(3)** The consent agreement may be filed with the court for immediate registration.

**Effect of registration**

**(4)** Upon registration of the consent agreement, the proceedings, if any, are terminated and the consent agreement has the same force and effect, and proceedings may be taken, as if it were an order of the court.

1999, c. 2, s. 22; 2002, c. 16, s. 11.

**Rescission or variation of consent agreement or order**

**74.13** The court may rescind or vary a consent agreement that it has registered or an order that it has made under this Part, on application by the Commissioner or the person who consented to the agreement, or the person against whom the order was made, if the court finds that

**(a)** the circumstances that led to the making of the agreement or order have changed and, in the circumstances that exist at the time the application is made, the agreement or order would not have been made or would have been ineffective in achieving its intended purpose; or

**(b)** the Commissioner and the person who consented to the agreement have consented to an alternative agreement or the Commissioner and the person against whom the order was made have consented to an alternative order.

1999, c. 2, s. 22; 2002, c. 16, s. 11.

**Evidence**

1999, c. 2, s. 22.

**Unpaid monetary penalty**

**74.15** The amount of an administrative monetary penalty imposed on a person under paragraph 74.1(1)(c) is a debt due to Her Majesty in right of Canada and may be recovered as such from that person in a court of competent jurisdiction.

**PART VIII**

# Matters Reviewable by Tribunal

## Restrictive Trade Practices

### Refusal to Deal

**Jurisdiction of Tribunal where refusal to deal**

**75 (1)** Where, on application by the Commissioner or a person granted leave under section 103.1, the Tribunal finds that

**(a)** a person is substantially affected in his business or is precluded from carrying on business due to his inability to obtain adequate supplies of a product anywhere in a market on usual trade terms,

**(b)** the person referred to in paragraph (a) is unable to obtain adequate supplies of the product because of insufficient competition among suppliers of the product in the market,

**(c)** the person referred to in paragraph (a) is willing and able to meet the usual trade terms of the supplier or suppliers of the product,

**(d)** the product is in ample supply, and

**(e)** the refusal to deal is having or is likely to have an adverse effect on competition in a market,

the Tribunal may order that one or more suppliers of the product in the market accept the person as a customer within a specified time on usual trade terms unless, within the specified time, in the case of an article, any customs duties on the article are removed, reduced or remitted and the effect of the removal, reduction or remission is to place the person on an equal footing with other persons who are able to obtain adequate supplies of the article in Canada.

**When article is a separate product**

**(2)** For the purposes of this section, an article is not a separate product in a market only because it is differentiated from other articles in its class by a trade-mark, proprietary name or the like, unless the article so differentiated occupies such a dominant position in that market as to substantially affect the ability of a person to carry on business in that class of articles unless that person has access to the article so differentiated.

**Definition of *trade terms***

**(3)** For the purposes of this section, the expression ***trade terms*** means terms in respect of payment, units of purchase and reasonable technical and servicing requirements.

**Inferences**

**(4)** In considering an application by a person granted leave under section 103.1, the Tribunal may not draw any inference from the fact that the Commissioner has or has not taken any action in respect of the matter raised by the application.

R.S., 1985, c. C-34, s. 75; R.S., 1985, c. 19 (2nd Supp.), s. 45; 1999, c. 2, s. 37; 2002, c. 16, s. 11.1.

## Price Maintenance

**Price maintenance**

**76 (1)** On application by the Commissioner or a person granted leave under section 103.1, the Tribunal may make an order under subsection (2) if the Tribunal finds that

**(a)** a person referred to in subsection (3) directly or indirectly

**(i)** by agreement, threat, promise or any like means, has influenced upward, or has discouraged the reduction of, the price at which the person's customer or any other person to whom the product comes for resale supplies or offers to supply or advertises a product within Canada, or

**(ii)** has refused to supply a product to or has otherwise discriminated against any person or class of persons engaged in business in Canada because of the low pricing policy of that other person or class of persons; and

**(b)** the conduct has had, is having or is likely to have an adverse effect on competition in a market.

**Order**

**(2)** The Tribunal may make an order prohibiting the person referred to in subsection (3) from continuing to engage in the conduct referred to in paragraph (1)(a) or requiring them to accept another person as a customer within a specified time on usual trade terms.

**Persons subject to order**

**(3)** An order may be made under subsection (2) against a person who

**(a)** is engaged in the business of producing or supplying a product;

**(b)** extends credit by way of credit cards or is otherwise engaged in a business that relates to credit cards; or

**(c)** has the exclusive rights and privileges conferred by a patent, trade-mark, copyright, registered industrial design or registered integrated circuit topography.

**Where no order may be made**

**(4)** No order may be made under subsection (2) if the person referred to in subsection (3) and the customer or other person referred to in subparagraph (1)(a)(i) or (ii) are principal and agent or mandator and mandatary, or are affiliated corporations or directors, agents, mandataries, officers or employees of

**(a)** the same corporation, partnership or sole proprietorship; or

**(b)** corporations, partnerships or sole proprietorships that are affiliated.

**Suggested retail price**

**(5)** For the purposes of this section, a suggestion by a producer or supplier of a product of a resale price or minimum resale price for the product, however arrived at, is proof that the person to whom the suggestion is made is influenced in accordance with the suggestion, in the absence of proof that the producer or supplier, in so doing, also made it clear to the person that they were under no obligation to accept the suggestion and would in no way suffer in their business relations with the producer or supplier or with any other person if they failed to accept the suggestion.

**Advertised price**

**(6)** For the purposes of this section, the publication by a producer or supplier of a product, other than a retailer, of an advertisement that mentions a resale price for the product is proof that the producer or supplier is influencing upward the selling price of any person to whom the product comes for resale, unless the price is expressed in a way that makes it clear to any person whose attention the advertisement comes to that the product may be sold at a lower price.

**Exception**

**(7)** Subsections (5) and (6) do not apply to a price that is affixed or applied to a product or its package or container.

**Refusal to supply**

**(8)** If, on application by the Commissioner or a person granted leave under section 103.1, the Tribunal finds that any person, by agreement, threat, promise or any like means, has induced a supplier, whether within or outside Canada, as a condition of doing business with the supplier, to refuse to supply a product to a particular person or class of persons because of the low pricing policy of that person or class of persons, and that the conduct of inducement has had, is having or is likely to have an adverse effect on competition in a market, the Tribunal may make an order prohibiting the person from continuing to engage in the conduct or requiring the person to do business with the supplier on usual trade terms.

**Where no order may be made**

**(9)** No order may be made under subsection (2) in respect of conduct referred to in subparagraph (1)(a)(ii) if the Tribunal is satisfied that the person or class of persons referred to in that subparagraph, in respect of products supplied by the person referred to in subsection (3),

**(a)** was making a practice of using the products as loss leaders, that is to say, not for the purpose of making a profit on those products but for purposes of advertising;

**(b)** was making a practice of using the products not for the purpose of selling them at a profit but for the purpose of attracting customers in the hope of selling them other products;

**(c)** was making a practice of engaging in misleading advertising; or

**(d)** made a practice of not providing the level of servicing that purchasers of the products might reasonably expect.

**Inferences**

**(10)** In considering an application by a person granted leave under section 103.1, the Tribunal may not draw any inference from the fact that the Commissioner has or has not taken any action in respect of the matter raised by the application.

**Where proceedings commenced under section 45, 49, 79 or 90.1**

**(11)** No application may be made under this section against a person on the basis of facts that are the same or substantially the same as the facts on the basis of which

**(a)** proceedings have been commenced against that person under section 45 or 49; or

**(b)** an order against that person is sought under section 79 or 90.1.

**Definition of *trade terms***

**(12)** For the purposes of this section, ***trade terms*** means terms in respect of payment, units of purchase and reasonable technical and servicing requirements.
R.S., 1985, c. C-34, s. 76; R.S., 1985, c. 19 (2nd Supp.), s. 45; 1999, c. 2, s. 37; 2009, c. 2, s. 426.

**(ii)** refrain from dealing in a specified class or kind of product except as supplied by the supplier or the nominee, and

**(b)** any practice whereby a supplier of a product induces a customer to meet a condition set out in subparagraph (a)(i) or (ii) by offering to supply the product to the customer on more favourable terms or conditions if the customer agrees to meet the condition set out in

either of those subparagraphs; (*exclusivité*)

***market restriction*** means any practice whereby a supplier of a product, as a condition of supplying the product to a customer, requires that customer to supply any product only in a defined market, or exacts a penalty of any kind from the customer if he supplies any product outside a defined market; (*limitation du marché*)

***tied selling*** means

**(a)** any practice whereby a supplier of a product, as a condition of supplying the product (the "tying" product) to a customer, requires that customer to

**(i)** acquire any other product from the supplier or the supplier's nominee, or

**(ii)** refrain from using or distributing, in conjunction with the tying product, another product that is not of a brand or manufacture designated by the supplier or the nominee, and

**(b)** any practice whereby a supplier of a product induces a customer to meet a condition set out in subparagraph (a)(i) or (ii) by offering to supply the tying product to the customer on more favourable terms or conditions if the customer agrees to meet the condition set out in either of those subparagraphs. (*ventes liées*)

**Exclusive dealing and tied selling**

**(2)** Where, on application by the Commissioner or a person granted leave under section 103.1, the Tribunal finds that exclusive dealing or tied selling, because it is engaged in by a major supplier of a product in a market or because it is widespread in a market, is likely to

**(a)** impede entry into or expansion of a firm in a market,

**(b)** impede introduction of a product into or expansion of sales of a product in a market, or

**(c)** have any other exclusionary effect in a market,

with the result that competition is or is likely to be lessened substantially, the Tribunal may make an order directed to all or any of the suppliers against whom an order is sought prohibiting them from continuing to engage in that exclusive dealing or tied selling and containing any other requirement that, in its opinion, is necessary to overcome the effects thereof in the market or to restore or stimulate competition in the market.

**Market restriction**

**(3)** Where, on application by the Commissioner or a person granted leave under section 103.1, the Tribunal finds that market restriction, because it is engaged in by a major supplier of a product or because it is widespread in relation to a product, is likely to substantially lessen competition in relation to the product, the Tribunal may make an order directed to all or any of

the suppliers against whom an order is sought prohibiting them from continuing to engage in market restriction and containing any other requirement that, in its opinion, is necessary to restore or stimulate competition in relation to the product.

**Damage awards**

**(3.1)** For greater certainty, the Tribunal may not make an award of damages under this section to a person granted leave under subsection 103.1(7).

**Where no order to be made and limitation on application of order**

**(4)** The Tribunal shall not make an order under this section where, in its opinion,

**(a)** exclusive dealing or market restriction is or will be engaged in only for a reasonable period of time to facilitate entry of a new supplier of a product into a market or of a new product into a market,

**(b)** tied selling that is engaged in is reasonable having regard to the technological relationship between or among the products to which it applies, or

**(c)** tied selling that is engaged in by a person in the business of lending money is for the purpose of better securing loans made by that person and is reasonably necessary for that purpose,

and no order made under this section applies in respect of exclusive dealing, market restriction or tied selling between or among companies, partnerships and sole proprietorships that are affiliated.

**Where company, partnership or sole proprietorship affiliated**

**(5)** For the purposes of subsection (4),

**(a)** one company is affiliated with another company if one of them is the subsidiary of the other or both are the subsidiaries of the same company or each of them is controlled by the same person;

**(b)** if two companies are affiliated with the same company at the same time, they are deemed to be affiliated with each other;

**(c)** a partnership or sole proprietorship is affiliated with another partnership, sole proprietorship or a company if both are controlled by the same person; and

**(d)** a company, partnership or sole proprietorship is affiliated with another company, partnership or sole proprietorship in respect of any agreement between them whereby one party grants to the other party the right to use a trade-mark or trade-name to identify the business of the grantee, if

**(i)** the business is related to the sale or distribution, pursuant to a marketing plan or system prescribed substantially by the grantor, of a multiplicity of products obtained from competing sources of supply and a multiplicity of suppliers, and

**(ii)** no one product dominates the business.

**When persons deemed to be affiliated**

**(6)** For the purposes of subsection (4) in its application to market restriction, where there is an agreement whereby one person (the “first” person) supplies or causes to be supplied to another person (the “second” person) an ingredient or ingredients that the second person processes by the addition of labour and material into an article of food or drink that he then sells in association with a trade-mark that the first person owns or in respect of which the first person is a registered user, the first person and the second person are deemed, in respect of the agreement, to be affiliated.

**Inferences**

**(7)** In considering an application by a person granted leave under section 103.1, the Tribunal may not draw any inference from the fact that the Commissioner has or has not taken any action in respect of the matter raised by the application.

R.S., 1985, c. C-34, s. 77; R.S., 1985, c. 19 (2nd Supp.), s. 45; 1999, c. 2, ss. 23, 37, c. 31, s. 52(F); 2002, c. 16, ss. 11.2, 11.3.

## Abuse of Dominant Position

**Definition of *anti-competitive act***

**78 (1)** For the purposes of section 79, ***anti-competitive act***, without restricting the generality of the term, includes any of the following acts:

**(a)** squeezing, by a vertically integrated supplier, of the margin available to an unintegrated customer who competes with the supplier, for the purpose of impeding or preventing the customer’s entry into, or expansion in, a market;

**(b)** acquisition by a supplier of a customer who would otherwise be available to a competitor of the supplier, or acquisition by a customer of a supplier who would otherwise be available to a competitor of the customer, for the purpose of impeding or preventing the competitor’s entry into, or eliminating the competitor from, a market;

**(c)** freight equalization on the plant of a competitor for the purpose of impeding or preventing the competitor’s entry into, or eliminating the competitor from, a market;

**(d)** use of fighting brands introduced selectively on a temporary basis to discipline or eliminate a competitor;

**(e)** pre-emption of scarce facilities or resources required by a competitor for the operation of a business, with the object of withholding the facilities or resources from a market;

**(f)** buying up of products to prevent the erosion of existing price levels;

**(g)** adoption of product specifications that are incompatible with products produced by any other person and are designed to prevent his entry into, or to eliminate him from, a market;

**(h)** requiring or inducing a supplier to sell only or primarily to certain customers, or to refrain from selling to a competitor, with the object of preventing a competitor's entry into, or expansion in, a market; and

**(i)** selling articles at a price lower than the acquisition cost for the purpose of disciplining or eliminating a competitor.

**(j) and (k)** [Repealed, 2009, c. 2, s. 427]

**(2)** [Repealed, 2009, c. 2, s. 427]

R.S., 1985, c. 19 (2nd Supp.), s. 45; 2000, c. 15, s. 13; 2009, c. 2, s. 427.

**Prohibition where abuse of dominant position**

**79 (1)** Where, on application by the Commissioner, the Tribunal finds that

**(a)** one or more persons substantially or completely control, throughout Canada or any area thereof, a class or species of business,

**(b)** that person or those persons have engaged in or are engaging in a practice of anti-competitive acts, and

**(c)** the practice has had, is having or is likely to have the effect of preventing or lessening competition substantially in a market,

the Tribunal may make an order prohibiting all or any of those persons from engaging in that practice.

**Additional or alternative order**

**(2)** Where, on an application under subsection (1), the Tribunal finds that a practice of anti-competitive acts has had or is having the effect of preventing or lessening competition substantially in a market and that an order under subsection (1) is not likely to restore competition in that market, the Tribunal may, in addition to or in lieu of making an order under subsection (1), make an order directing any or all the persons against whom an order is sought to take such actions, including the divestiture of assets or shares, as are reasonable and as are necessary to overcome the effects of the practice in that market.

**Limitation**

**(3)** In making an order under subsection (2), the Tribunal shall make the order in such terms as will in its opinion interfere with the rights of any person to whom the order is directed or any other person affected by it only to the extent necessary to achieve the purpose of the order.

**Administrative monetary penalty**

**(3.1)** If the Tribunal makes an order against a person under subsection (1) or (2), it may also order them to pay, in any manner that the Tribunal specifies, an administrative monetary penalty in an amount not exceeding $10,000,000 and, for each subsequent order under either of those subsections, an amount not exceeding $15,000,000.

**Aggravating or mitigating factors**

**(3.2)** In determining the amount of an administrative monetary penalty, the Tribunal shall take into account any evidence of the following:

**(a)** the effect on competition in the relevant market;

**(b)** the gross revenue from sales affected by the practice;

**(c)** any actual or anticipated profits affected by the practice;

**(d)** the financial position of the person against whom the order is made;

**(e)** the history of compliance with this Act by the person against whom the order is made; and

**(f)** any other relevant factor.

**Purpose of order**

**(3.3)** The purpose of an order made against a person under subsection (3.1) is to promote practices by that person that are in conformity with the purposes of this section and not to punish that person.

**Superior competitive performance**

**(4)** In determining, for the purposes of subsection (1), whether a practice has had, is having or is likely to have the effect of preventing or lessening competition substantially in a market, the Tribunal shall consider whether the practice is a result of superior competitive performance.

**Exception**

**(5)** For the purpose of this section, an act engaged in pursuant only to the exercise of any right or enjoyment of any interest derived under the *Copyright Act*, *Industrial Design Act*, *Integrated Circuit Topography Act*, *Patent Act*, *Trade-marks Act* or any other Act of Parliament pertaining to intellectual or industrial property is not an anti-competitive act.

**Limitation period**

**(6)** No application may be made under this section in respect of a practice of anti-competitive acts more than three years after the practice has ceased.

**Where proceedings commenced under section 45, 49, 76, 90.1 or 92**

**(7)** No application may be made under this section against a person on the basis of facts that are the same or substantially the same as the facts on the basis of which

**(a)** proceedings have been commenced against that person under section 45 or 49; or

**(b)** an order against that person is sought by the Commissioner under section 76, 90.1 or 92.

R.S., 1985, c. 19 (2nd Supp.), s. 45; 1990, c. 37, s. 31; 1999, c. 2, s. 37; 2002, c. 16, s. 11.4; 2009, c. 2, s. 428.

**Unpaid monetary penalty**

**79.1** The amount of an administrative monetary penalty imposed on an entity under subsection 79(3.1) is a debt due to Her Majesty in right of Canada and may be recovered as such from that entity in a court of competent jurisdiction.

2002, c. 16, s. 11.5.

## Delivered Pricing

**Definition of *delivered pricing***

**80 (1)** For the purposes of section 81, ***delivered pricing*** means the practice of refusing a customer, or a person seeking to become a customer, delivery of an article at any place in which the supplier engages in a practice of making delivery of the article to any other of the supplier's customers on the same trade terms that would be available to the first-mentioned customer if his place of business were located in that place.

**Definition of *trade terms***

**(2)** For the purposes of subsection (1), the expression ***trade terms*** means terms in respect of payment, units of purchase and reasonable technical and servicing requirements.

R.S., 1985, c. 19 (2nd Supp.), s. 45.

**Delivered pricing**

**81 (1)** Where, on application by the Commissioner, the Tribunal finds that delivered pricing is engaged in by a major supplier of an article in a market or is widespread in a market with the result that a customer, or a person seeking to become a customer, is denied an advantage that would otherwise be available to him in the market, the Tribunal may make an order prohibiting all or any of such suppliers from engaging in delivered pricing.

**Exception where significant capital investment needed**

**(2)** No order shall be made against a supplier under this section where the Tribunal finds that the supplier could not accommodate any additional customers at a locality without making significant capital investment at that locality.

**Exception where trade-mark used**

**(3)** No order shall be made against a supplier under this section in respect of a practice of refusing a customer delivery of an article that the customer sells in association with a trade-mark that the supplier owns or in respect of which the supplier is a registered user where the Tribunal finds that the practice is necessary to maintain a standard of quality in respect of the article.

R.S., 1985, c. 19 (2nd Supp.), s. 45; 1999, c. 2, s. 37.

## Foreign Judgments and Laws

**Foreign judgments, etc.**

**82** Where, on application by the Commissioner, the Tribunal finds that

**(a)** a judgment, decree, order or other process given, made or issued by or out of a court or other body in a country other than Canada can be implemented in whole or in part by persons in Canada, by companies incorporated by or pursuant to an Act of Parliament or of the legislature of a province, or by measures taken in Canada, and

**(b)** the implementation in whole or in part of the judgment, decree, order or other process in Canada, would

**(i)** adversely affect competition in Canada,

**(ii)** adversely affect the efficiency of trade or industry in Canada without bringing about or increasing in Canada competition that would restore or improve that efficiency,

**(iii)** adversely affect the foreign trade of Canada without compensating advantages, or

**(iv)** otherwise restrain or injure trade or commerce in Canada without compensating advantages,

the Tribunal may, by order, direct that

**(c)** no measures be taken in Canada to implement the judgment, decree, order or process, or

**(d)** no measures be taken in Canada to implement the judgment, decree, order or process except in such manner as the Tribunal prescribes for the purpose of avoiding an effect referred to in subparagraphs (b)(i) to (iv).

R.S., 1985, c. 19 (2nd Supp.), s. 45; 1999, c. 2, s. 37.

**Foreign laws and directives**

**83 (1)** Where, on application by the Commissioner, the Tribunal finds that a decision has been or is about to be made by a person in Canada or a company incorporated by or pursuant to an Act of Parliament or of the legislature of a province

**(a)** as a result of

**(i)** a law in force in a country other than Canada, or

**(ii)** a directive, instruction, intimation of policy or other communication to that person or company or to any other person from

**(A)** the government of a country other than Canada or of any political subdivision thereof that is in a position to direct or influence the policies of that person or company, or

**(B)** a person in a country other than Canada who is in a position to direct or influence the policies of that person or company,

where the communication is for the purpose of giving effect to a law in force in a country other than Canada,

and that the decision, if implemented, would have or would be likely to have any of the effects mentioned in subparagraphs 82(b)(i) to (iv), or

**(b)** as a result of a directive, instruction, intimation of policy or other communication to that person or company or to any other person, from a person in a country other than Canada who is in a position to direct or influence the policies of that person or company, where the communication is for the purpose of giving effect to a conspiracy, combination, agreement or arrangement entered into outside Canada that, if entered into in Canada, would have been in contravention of section 45,

the Tribunal may, by order, direct that

**(c)** in a case described in paragraph (a) or (b), no measures be taken by the person or company in Canada to implement the law, directive, instruction, intimation of policy or other communication, or

**(d)** in a case described in paragraph (a), no measures be taken by the person or company in Canada to implement the law, directive, instruction, intimation of policy or other communication except in such manner as the Tribunal prescribes for the purpose of avoiding an effect referred to in subparagraphs 82(b)(i) to (iv).

**Limitation**

**(2)** No application may be made by the Commissioner for an order under this section against a particular company where proceedings have been commenced under section 46 against that company based on the same or substantially the same facts as would be alleged in the application.

R.S., 1985, c. 19 (2nd Supp.), s. 45; 1999, c. 2, s. 37.

## Foreign Suppliers

**Refusal to supply by foreign supplier**

**84** Where, on application by the Commissioner, the Tribunal finds that a supplier outside Canada has refused to supply a product or otherwise discriminated in the supply of a product to a person in Canada (the “first” person) at the instance of and by reason of the exertion of

buying power outside Canada by another person, the Tribunal may order any person in Canada (the “second” person) by whom or on whose behalf or for whose benefit the buying power was exerted

**(a)** to sell any such product of the supplier that the second person has obtained or obtains to the first person at the laid-down cost in Canada to the second person of the product and on the same terms and conditions as the second person obtained or obtains from the supplier; or

**(b)** not to deal or to cease to deal, in Canada, in that product of the supplier.

R.S., 1985, c. 19 (2nd Supp.), s. 45;  1999, c. 2, s. 37.

# Specialization Agreements

**Definitions**

**85** For the purposes of this section and sections 86 to 90,

***article*** includes each separate type, size, weight and quality in which an article, within the meaning assigned by section 2, is produced; (*article*)

***registered*** means registered in the register maintained pursuant to section 89; (*inscrit*)

***specialization agreement*** means an agreement under which each party thereto agrees to discontinue producing an article or service that he is engaged in producing at the time the agreement is entered into on the condition that each other party to the agreement agrees to discontinue producing an article or service that he is engaged in producing at the time the agreement is entered into, and includes any such agreement under which the parties also agree to buy exclusively from each other the articles or services that are the subject of the agreement. (*accord de spécialisation*)

R.S., 1985, c. 19 (2nd Supp.), s. 45.

**Order directing registration**

**86 (1)** Where, on application by any person, and after affording the Commissioner a reasonable opportunity to be heard, the Tribunal finds that an agreement that the person who has made the application has entered into or is about to enter into is a specialization agreement and that

**(a)** the implementation of the agreement is likely to bring about gains in efficiency that will be greater than, and will offset, the effects of any prevention or lessening of competition that will result or is likely to result from the agreement and the gains in efficiency would not likely be attained if the agreement were not implemented, and

**(b)** no attempt has been made by the persons who have entered or are about to enter into the agreement to coerce any person to become a party to the agreement,

the Tribunal may, subject to subsection (4), make an order directing that the agreement be registered for a period specified in the order.

**Factors to be considered**

**(2)** In considering whether an agreement is likely to bring about gains in efficiency described in paragraph (1)(a), the Tribunal shall consider whether those gains will result in

**(a)** a significant increase in the real value of exports; or

**(b)** a significant substitution of domestic articles or services for imported articles or services.

**Redistribution of income does not result in gains in efficiency**

**(3)** For the purposes of paragraph (1)(a), the Tribunal shall not find that an agreement is likely to bring about gains in efficiency by reason only of a redistribution of income between two or more persons.

**Conditional orders**

**(4)** Where, on an application under subsection (1), the Tribunal finds that an agreement meets the conditions prescribed by paragraphs (a) and (b) of that subsection but also finds that, as a result of the implementation of the agreement, there is not likely to be substantial competition remaining in the market or markets to which the agreement relates, the Tribunal may provide, in an order made under subsection (1), that the order shall take effect only if, within a reasonable period of time specified in the order, there has occurred any of the following events, specified in the order:

**(a)** the divestiture of particular assets, specified in the order;

**(b)** a wider licensing of patents or registered integrated circuit topographies;

**(c)** a reduction in tariffs;

**(d)** the making of an order in council under section 23 of the *Financial Administration Act* effecting a remission or remissions specified in the order of the Tribunal of any customs duties on an article that is a subject of the agreement; or

**(e)** the removal of import quotas or import licensing requirements.

R.S., 1985, c. 19 (2nd Supp.), s. 45; 1990, c. 37, s. 32; 1999, c. 2, s. 37.

**Registration of modifications**

**87 (1)** On application by the parties to a specialization agreement that has been registered, and after affording the Commissioner a reasonable opportunity to be heard, the Tribunal may make an order directing that a modification of the agreement be registered.

**Order to remove from register**

**(2)** Where, on application by the Commissioner, the Tribunal finds that the agreement or a modification thereof that has been registered

**(a)** has ceased to meet the conditions prescribed by paragraph 86(1)(a) or (b), or

**(b)** is not being implemented,

the Tribunal may make an order directing that the agreement or modification thereof, and any order relating thereto, be removed from the register.

R.S., 1985, c. 19 (2nd Supp.), s. 45; 1999, c. 2, s. 37.

**Right of intervention**

**88** The attorney general of a province may intervene in any proceedings before the Tribunal under section 86 or 87 for the purpose of making representations on behalf of the province.

R.S., 1985, c. 19 (2nd Supp.), s. 45.

**Register of specialization agreements**

**89 (1)** The Tribunal shall cause to be maintained at its Registry established pursuant to subsection 14(1) of the *Competition Tribunal Act* a register of specialization agreements, and modifications thereof, that the Tribunal has directed be registered, and any such agreements and modifications thereof shall be included in the register for the periods specified in the orders.

**Public access to register**

**(2)** The register shall be kept open to inspection by any person during normal business hours of the Tribunal.

R.S., 1985, c. 19 (2nd Supp.), s. 45.

**Non-application of sections 45 and 77**

**90** Section 45, and section 77 as it applies to exclusive dealing, do not apply in respect of a specialization agreement, or any modification thereof, that is registered.

R.S., 1985, c. 19 (2nd Supp.), s. 45.

# Mergers

**Definition of *merger***

**91** In sections 92 to 100, ***merger*** means the acquisition or establishment, direct or indirect, by one or more persons, whether by purchase or lease of shares or assets, by amalgamation or by combination or otherwise, of control over or significant interest in the whole or a part of a business of a competitor, supplier, customer or other person.

R.S., 1985, c. 19 (2nd Supp.), s. 45.

**Order**

**92 (1)** Where, on application by the Commissioner, the Tribunal finds that a merger or proposed merger prevents or lessens, or is likely to prevent or lessen, competition substantially

**(a)** in a trade, industry or profession,

**(b)** among the sources from which a trade, industry or profession obtains a product,

**(c)** among the outlets through which a trade, industry or profession disposes of a product, or

**(d)** otherwise than as described in paragraphs (a) to (c),

the Tribunal may, subject to sections 94 to 96,

**(e)** in the case of a completed merger, order any party to the merger or any other person

**(i)** to dissolve the merger in such manner as the Tribunal directs,

**(ii)** to dispose of assets or shares designated by the Tribunal in such manner as the Tribunal directs, or

**(iii)** in addition to or in lieu of the action referred to in subparagraph (i) or (ii), with the consent of the person against whom the order is directed and the Commissioner, to take any other action, or

**(f)** in the case of a proposed merger, make an order directed against any party to the proposed merger or any other person

**(i)** ordering the person against whom the order is directed not to proceed with the merger,

**(ii)** ordering the person against whom the order is directed not to proceed with a part of the merger, or

**(iii)** in addition to or in lieu of the order referred to in subparagraph (ii), either or both

**(A)** prohibiting the person against whom the order is directed, should the merger or part thereof be completed, from doing any act or thing the prohibition of which the Tribunal determines to be necessary to ensure that the merger or part thereof does not prevent or lessen competition substantially, or

**(B)** with the consent of the person against whom the order is directed and the Commissioner, ordering the person to take any other action.

**Evidence**

**(2)** For the purpose of this section, the Tribunal shall not find that a merger or proposed merger prevents or lessens, or is likely to prevent or lessen, competition substantially solely on the basis of evidence of concentration or market share.

R.S., 1985, c. 19 (2nd Supp.), s. 45; 1999, c. 2, s. 37.

**Factors to be considered regarding prevention or lessening of competition**

**93** In determining, for the purpose of section 92, whether or not a merger or proposed merger prevents or lessens, or is likely to prevent or lessen, competition substantially, the Tribunal may have regard to the following factors:

**(a)** the extent to which foreign products or foreign competitors provide or are likely to provide effective competition to the businesses of the parties to the merger or proposed merger;

**(b)** whether the business, or a part of the business, of a party to the merger or proposed merger has failed or is likely to fail;

**(c)** the extent to which acceptable substitutes for products supplied by the parties to the merger or proposed merger are or are likely to be available;

**(d)** any barriers to entry into a market, including

**(i)** tariff and non-tariff barriers to international trade,

**(ii)** interprovincial barriers to trade, and

**(iii)** regulatory control over entry,

and any effect of the merger or proposed merger on such barriers;

**(e)** the extent to which effective competition remains or would remain in a market that is or would be affected by the merger or proposed merger;

**(f)** any likelihood that the merger or proposed merger will or would result in the removal of a vigorous and effective competitor;

**(g)** the nature and extent of change and innovation in a relevant market; and

**(h)** any other factor that is relevant to competition in a market that is or would be affected by the merger or proposed merger.

R.S., 1985, c. 19 (2nd Supp.), s. 45.

**Exception**

**94** The Tribunal shall not make an order under section 92 in respect of

**(a)** a merger substantially completed before the coming into force of this section;

**(b)** a merger or proposed merger under the *Bank Act*, the *Cooperative Credit Associations Act*, the *Insurance Companies Act* or the *Trust and Loan Companies Act* in respect of which the Minister of Finance has certified to the Commissioner the names of the parties and that the merger is in the public interest — or that it would be in the public interest, taking into account any terms and conditions that may be imposed under those Acts; or

**(c)** a merger or proposed merger approved under subsection 53.2(7) of the *Canada Transportation Act* and in respect of which the Minister of Transport has certified to the Commissioner the names of the parties.

R.S., 1985, c. 19 (2nd Supp.), s. 45; 1991, c. 45, s. 549, c. 46, ss. 592, 593, c. 47, s. 716; 1999, c. 2, s. 37; 2000, c. 15, s. 14; 2001, c. 9, s. 579; 2007, c. 19, s. 62.

**Exception for joint ventures**

**95 (1)** The Tribunal shall not make an order under section 92 in respect of a combination formed or proposed to be formed, otherwise than through a corporation, to undertake a specific project or a program of research and development if

**(a)** a project or program of that nature

**(i)** would not have taken place or be likely to take place in the absence of the combination, or

**(ii)** would not reasonably have taken place or reasonably be likely to take place in the absence of the combination because of the risks involved in relation to the project or program and the business to which it relates;

**(b)** no change in control over any party to the combination resulted or would result from the combination;

**(c)** all the persons who formed the combination are parties to an agreement in writing that imposes on one or more of them an obligation to contribute assets and governs a continuing relationship between those parties;

**(d)** the agreement referred to in paragraph (c) restricts the range of activities that may be carried on pursuant to the combination, and provides that the agreement terminates on the completion of the project or program; and

**(e)** the combination does not prevent or lessen or is not likely to prevent or lessen competition except to the extent reasonably required to undertake and complete the project or program.

**Limitation**

**(2)** For greater certainty, this section does not apply in respect of the acquisition of assets of a combination.

R.S., 1985, c. 19 (2nd Supp.), s. 45.

**Exception where gains in efficiency**

**96 (1)** The Tribunal shall not make an order under section 92 if it finds that the merger or proposed merger in respect of which the application is made has brought about or is likely to bring about gains in efficiency that will be greater than, and will offset, the effects of any

prevention or lessening of competition that will result or is likely to result from the merger or proposed merger and that the gains in efficiency would not likely be attained if the order were made.

**Factors to be considered**

**(2)** In considering whether a merger or proposed merger is likely to bring about gains in efficiency described in subsection (1), the Tribunal shall consider whether such gains will result in

**(a)** a significant increase in the real value of exports; or

**(b)** a significant substitution of domestic products for imported products.

**Restriction**

**(3)** For the purposes of this section, the Tribunal shall not find that a merger or proposed merger has brought about or is likely to bring about gains in efficiency by reason only of a redistribution of income between two or more persons.

R.S., 1985, c. 19 (2nd Supp.), s. 45.

**Limitation period**

**97** No application may be made under section 92 in respect of a merger more than one year after the merger has been substantially completed.

R.S., 1985, c. 19 (2nd Supp.), s. 45; 2009, c. 2, s. 430.

**Where proceedings commenced under section 45, 49, 79 or 90.1**

**98** No application may be made under section 92 against a person on the basis of facts that are the same or substantially the same as the facts on the basis of which

**(a)** proceedings have been commenced against that person under section 45 or 49; or

**(b)** an order against that person is sought under section 79 or 90.1.

**Conditional orders directing dissolution of a merger**

**99 (1)** The Tribunal may provide, in an order made under section 92 directing a person to dissolve a merger or to dispose of assets or shares, that the order may be rescinded or varied if, within a reasonable period of time specified in the order,

**(a)** there has occurred

**(i)** a reduction, removal or remission, specified in the order, of any relevant customs duties, or

**(b)** that person or any other person has taken any action specified in the order

that will, in the opinion of the Tribunal, prevent the merger from preventing or lessening competition substantially.

**When conditional order may be rescinded or varied**

**(2)** Where, on application by any person against whom an order under section 92 is directed, the Tribunal is satisfied that

**(a)** a reduction, removal or remission specified in the order pursuant to paragraph (1)(a) has occurred, or

the Tribunal may rescind or vary the order accordingly.

**Interim order where no application under section 92**

**100 (1)** The Tribunal may issue an interim order forbidding any person named in the application from doing any act or thing that it appears to the Tribunal may constitute or be directed toward the completion or implementation of a proposed merger in respect of which an application has not been made under section 92 or previously under this section, where

**(a)** on application by the Commissioner, certifying that an inquiry is being made under paragraph 10(1)(b) and that, in the Commissioner's opinion, more time is required to complete the inquiry, the Tribunal finds that in the absence of an interim order a party to the proposed merger or any other person is likely to take an action that would substantially impair the ability of the Tribunal to remedy the effect of the proposed merger on competition under that section because that action would be difficult to reverse; or

**(b)** the Tribunal finds, on application by the Commissioner, that there has been a contravention of section 114 in respect of the proposed merger.

**Notice of application**

**(2)** Subject to subsection (3), at least forty-eight hours notice of an application for an interim order under subsection (1) shall be given by or on behalf of the Commissioner to each person against whom the order is sought.

**(3)** Where the Tribunal is satisfied, in respect of an application for an interim order under paragraph (1)(b), that

**(a)** subsection (2) cannot reasonably be complied with, or

**(b)** the urgency of the situation is such that service of notice in accordance with subsection (2) would not be in the public interest,

it may proceed with the application *ex parte*.

**Terms of interim order**

**(4)** An interim order issued under subsection (1)

**(a)** shall be on such terms as the Tribunal considers necessary and sufficient to meet the circumstances of the case; and

**(b)** subject to subsections (5) and (6), shall have effect for such period of time as is specified in it.

**Extension of time**

**(7)** Where the Tribunal finds, on application made by the Commissioner on forty-eight hours notice to each person to whom an interim order is directed, that the Commissioner is unable to complete an inquiry within the period specified in the order because of circumstances beyond the control of the Commissioner, the Tribunal may extend the duration of the order to a day not more than sixty days after the order takes effect.

**Completion of inquiry**

**(8)** Where an interim order is issued under paragraph (1)(a), the Commissioner shall proceed as expeditiously as possible to complete the inquiry under section 10 in respect of the proposed merger.

**Right of intervention**

**101** The attorney general of a province may intervene in any proceedings before the Tribunal under section 92 for the purpose of making representations on behalf of the province.

**No application under section 92**

**103** Where the Commissioner issues a certificate under section 102, the Commissioner shall not, if the transaction to which the certificate relates is substantially completed within one year after the certificate is issued, apply to the Tribunal under section 92 in respect of the transaction solely on the basis of information that is the same or substantially the same as the information on the basis of which the certificate was issued.

R.S., 1985, c. 19 (2nd Supp.), s. 45; 1999, c. 2, s. 37.

**Application discontinued**

**Inquiry by Commissioner**

**(12)** If the Commissioner has certified under subsection (3) that a matter in respect of which leave was sought by a person is under inquiry and the Commissioner subsequently discontinues the inquiry other than by way of settlement, the Commissioner shall, as soon as practicable, notify that person that the inquiry is discontinued.

**Confirming or setting aside interim order**

**(7)** A person against whom the Tribunal has made an interim order may apply to the Tribunal in the first 10 days during which the order has effect to have it varied or set aside and the Tribunal shall

**(a)** if it is satisfied that one or more of the situations set out in paragraphs (2)(a) to (c) existed or are likely to exist, make an order confirming the interim order, with or without variation as the Tribunal considers necessary and sufficient to meet the circumstances, and fix the effective period of that order for a maximum of 70 days, beginning on the day on which the order confirming the interim order is made; and

**(b)** if it is not satisfied that any of the situations set out in paragraphs (2)(a) to (c) existed or is likely to exist, make an order setting aside the interim order.

**Prior notice of acquisitions**

**115 (1)** It is not necessary to comply with section 114 in respect of a proposed acquisition of voting shares or of an interest in a combination where a limit set out in subsection 110(3) or (6) would be exceeded as a result of the proposed acquisition within three years immediately following a previous compliance with section 114 required in relation to the same limit.

**Notice of future acquisition**

**(2)** Where a person or persons who propose to acquire voting shares or an interest in a combination are required to comply with section 114 because the twenty or thirty-five per cent limit set out in subsection 110(3) or the thirty-five per cent limit set out in subsection 110(6) would be exceeded as a result of the acquisition, the person or persons may, at the time of the compliance, give notice to the Commissioner of a proposed further acquisition of voting shares or of an interest in a combination that would result in a fifty per cent limit set out in that subsection being exceeded, and supply the Commissioner with a detailed description in writing of the steps to be carried out in the further acquisition.
